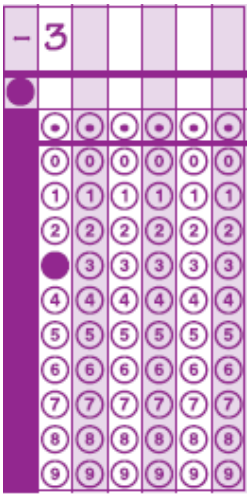
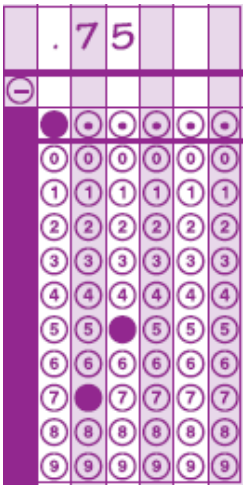
Directions for Completing the Answer Grids

1. Work the problem and find an answer.
2. In the answer document, write your answer in the boxes at the top of the answer grid.
   - Write only **one** digit or symbol in each box.
   - You may not need all the boxes to enter your answer, but do NOT leave a blank box in the middle of your answer.
3. Under each box in which you wrote a digit or symbol, fill in the bubble that matches that digit or symbol.
   - Fill in one and ONLY one bubble for each box with a digit or symbol. Do NOT fill in a bubble under a blank box.
   - Fill in the bubble by making a solid mark that completely fills the circle.
   - If you need to enter a fraction, you must use the decimal form.
4. The diagrams below show two examples of correctly completed answer grids.

To answer **−3**, fill in the answer grid as shown here.





To answer **.75**, fill in the answer grid as shown here.
