Report of Principal and School Improvement Council

In the past year, the professionals at Carver-Edisto Middle School have spearheaded several initiatives aimed at increasing student achievement. Teachers were trained to work together using a proven, effective curriculum. Academic Coaches, a Principal Specialist, and additional teachers were employed to assist teachers with their work in the classroom. Professional development time was targeted on best teaching and assessment practices and on how to use student data. Additionally, technology has been increased and upgraded. Furthermore, students organized personal student data notebooks to track their progress and to plan for their futures. As students have met their goals throughout the year, they have had their pictures taken for Academic Celebration Walls and participated in school-wide celebrations. Also, each teacher sponsored a club activity for the students. In addition to these clubs, our students performed two musicals this year, "A Dickens of a Christmas" and "The Lion King." To date, these initiatives have begun to show progress.

However, we know that more is needed. We believe it is necessary to develop and incorporate a new approach to meet the needs of our students. Therefore, beginning with the school year 2008-2009, project-based learning (PBL) integrated with state-of-the-art technology has been implemented. Two hundred sixth grade students are being served in the first year, and this project will continue to proceed to the next grades in the following two years. This innovative approach is utilizing technology to build necessary Twenty-First Century skills. An overarching focus of PBL is providing a real-world learning environment acclimating students to their future workplaces. Succinctly stated, the PBL design is based on academic rigor, authentic audiences, applied learning, active exploration, adult relationships, and authentic assessment.

In order to bring this real-world learning to all students, Carver-Edisto Middle School has "Gone Green." All students, faculty, and staff are working together to first investigate, explore, and create an eco-friendly environment at the middle school and then spread their learning to the community. Throughout all of this, the students at CEMS are reading and writing in all courses this year. We kicked off this initiative this past summer with the first Summer Reading and Enrichment Program. We believe that this has helped bridge the learning gap often created over the summer. Collectively, we believe that these student-centered activities and programs have created a learning environment that enables all students to reach their goals!
