Report of Principal and School Improvement Council

William S. Hall is a residential facility that serves students requiring inpatient mental health services. Unless medically unadvisable, students are expected to participate in educational activities which will prepare them to meet South Carolina learning standards and score as well as their abilities allow on state standardized tests. Our academic program focuses on helping students stay current with their academic skills or develop strengths that will enable them to function more effectively in their regular school programs when their hospital stay is completed. Each student is offered the opportunity to participate in the Richland One approved core course curriculum taught by certified teachers during his/her hospital stay. A Nova Net learning laboratory is also available to supplement classroom educational opportunities and to help students who have splintered skills or need enrichment activities. Because of the small number of students tested at our facility, our scores remain statistically insignificant; however, we have noted a steady increase in the number of students scoring basic and above basic on HSAP and PASS. We have also experienced an increase in the number of students receiving passing scores on EOC tests.

This year we have focused on how to utilize assessments to increase achievement. During staff development, teachers have utilized data on past and current students to determine areas of strengths and weaknesses. With this information, we have focused on how to use the data to improve the quality of instruction.

We also have reorganized classes to better serve students who come to us with identified disabilities. Hall school staff has worked in conjunction with hospital staff to improve programming to benefit the educational and emotional needs of the students that we serve.

 Anita Rice, SIC Chairperson
