REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

McCrorey-Liston School of Technology (MLST) made tremendous strides towards academic excellence through the implementation of best practices in instruction, and by implementing a new technology initiative during the 2011-2012 school year, which allowed for technology integration in all content areas. The students and teachers were engaged in using various forms of technology to enhance their standards-based lessons, while using a hands-on approach to instruction. Teachers participated in professional development opportunities on technology integration, and also implemented Project Based Learning in their classrooms to enhance instruction.

This year, improved academic performance and character development were priority areas for our students. The Early Bird Club was established in an effort to allow students the opportunity to receive intervention support in developing skills identified through formative and summative assessment data. Character development was addressed through school-wide character education and prevention programs.

In addition to opportunities for academic and character development, MLST students were recognized this year for their artistic talents. Several students had visual artwork displayed for school and district events, while others participated through song and dance during the Fairfield County Arts Showcase. Students in grades five and six were afforded the opportunity to work with an Artist in Residence to create a beautiful tiled mural that depicted the school's eagle mascot. This mural now adorns the school's entrance.

In addition to fostering the many talents at MLST, the Parent Teacher Association (PTA) and School Improvement Council (SIC) supported numerous school-wide activities for our students, teachers, and community. The PTA and the SIC teamed up to launch a school beautification project. The SIC established and achieved its goal of promoting student reading, through which the top three readers in the school were awarded prizes. The support of students, parents, and community stakeholders was outstanding!

Students at MLST took an active role in supporting others through service learning projects, as students raised funds for the American Cancer Society's Relay for Life and for the Leukemia Society's Pennies for Patients efforts. Additionally, contributions were made to the American Heart Association.

Through the efforts of proud students, excellent faculty and staff, committed parents, and the support of the community at large, McCrorey-Liston School of Technology is continuing a tradition to "Aim High, Fly High, and Achieve High!"
