Report of Principal and School Improvement Council

Johnakin Middle School focused on increasing test scores in all subject areas for the 2012-2013 school year. We continued to emphasize professional learning communities, nonfiction writing, and effective instructional strategies. During professional learning communities, teachers and administrators analyzed student data, focused on targeted students, collaborated and shared ideas, and identified strengths and areas of improvement. All teachers continued to incorporate nonfiction writing prompts in their classrooms at least three times a week. Monthly writing benchmarks were given to assess students' growth in writing.

Teachers concentrated on improving and implementing effective instructional strategies. Professional development was offered throughout the school year. All classrooms were literacy rich with content area interactive word walls. Teachers reflected on their use of instructional strategies and collaborated with colleagues to improve their instruction.

Johnakin Middle School hosted numerous successful events, including REAL Men Read, African American Read In, Geography Bee, Spelling Bee, Science Fair, Shakespeare Festival, Black History Day Program, Veteran's Day Program, and a Winter Chorus Concert. Each month, the administration chose three Students of the Month, a Teacher Feature, and a Staff Spotlight. Johnakin Middle School's BETA Club attended the State Convention and received several awards.

The administration and faculty at Johnakin Middle School remain committed to ensuring all students are provided multiple opportunities to excel during their middle school years. We see nothing but success on the horizon.

ESEA/Federal Accountability Rating System

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.
