

State and federal laws require public schools to release report cards to the public each year. This year, the report card has been updated to reflect changes in reporting directed by the SC Education Oversight Committee. Schools will not be rated for state accountability purposes until Fall 2017 when the state will transition to a single accountability system. The following reports student performance in school year 2014-15.

WORLD CLASS SKILLS & LIFE AND CAREER CHARACTERISTICS

Our school is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate by ...

It is the mission of the Cyber Academy of South Carolina (CASC), a high-quality, full time online public charter school, to be accountable for developing each of our student's full potential by utilizing research-based technology applications, meaningful teacher/student/parent involvement, and engaging, individualized learning. CASC opened in the 2013-14 school year enrolling grades K-9 students from across South Carolina. We will add one grade level per year of operation, and will serve grades K-12 in the 2016-17 School Year. Any student qualified to attend school in South Carolina in the appropriate grade will be eligible to attend CASC. CASC seeks to ensure that all teachers are South Carolina-certified (and NCLB Highly Qualified). CASC teachers provide daily guidance, instruction, and support to students and their "learning coaches" (a parent, or another responsible adult designated by the parent, who helps guide a student through their daily coursework) via email, telephone, in person, and during synchronous web conference learning sessions. Each student has an Individual Learning Plan (ILP) with her/his own learning goals. K-8 grade students study Language Arts/English, Mathematics, Science, History, Art, Music and World Languages. The school offers more than 150 high school courses in Math, English, Science, History and World Languages in multiple levels, remediation and credit recovery courses, and electives. The school's education program combines lessons accessed on the Internet with hands-on materials. Students receive the course content, instruction, assignments, assessments and supplemental materials online as well as hands-on materials kits shipped directly to the student free of charge. Students meeting eligibility requirements may be able to request and check out a computer and printer and receive Internet cost reimbursement while enrolled at the school. Teachers in our Special Education department serve students according to Individualized Education Plans or 504 plans. Students requiring speech services participate in virtual speech sessions. Occupational Therapy, Physical Therapy, and Speech Services are also provided through contracted, certified providers. David Crook; Head of School Our Blended Learning program is expanding quickly. Our goal for the 2015-2016 school year is that all of our students, across the state of South Carolina, have access to our unique "Learning Labs", which serve as a place for students and families to receive individual and small group instruction. This program sets CASC apart as the only Kindergarten through High School virtual program with a truly state-wide blended program. David Crook; Head of School Steve Fowle; Board Chairperson
