

Exit/Completion Notice

The Summary of Performance action is not included in this flow chart because this particular action can occur before or after the Exit/Completion Notice depending on the needs of the student.

*Even when the student or parent/guardian states that the student does not intend to return to school for the next school year, the IEP team must provide the student with notice that he or she is eligible to continue receiving services AND develop an IEP for the student.

**The meeting notice for the IEP meeting could include the following as meeting purposes: Annual review, Exit/Completion, and/or Summary of Performance.
