

Description of Expanded ADEPT Resources 2016-17

(Forms A-E)

The following forms were created or revised from existing resources to support districts for 2016-2017.

Form A- Student Learning Objective (SLO) Template Form A is to be used with Induction, Annual Summative, Annual Diagnostic Assistance, and Continuing Summative Teachers. For Induction Teachers, the form will serve as a formative measure designed to help teachers prepare for the Annual Summative Evaluation. The process is entirely formative and designed to promote growth. For Annual Summative and Continuing Summative Teachers, the form will serve as the LRP requirement within SAFE-T. Sections I-VIII and Section X will contribute toward the Planning Domain of SAFE-T. Section IX (growth targets) will be scored formatively, and will *NOT* contribute toward the teacher's summative SAFE-T score. Additionally, this form can serve as the teacher's Professional Growth and Development Plan.

Form B- Student Learning Objective (SLO) Template Form B is to be used with Annual GBE, Continuing GBE, and Continuing Recertification Teachers. This form will be scored formatively and will contribute toward the teacher's Professional Growth and Development Plan.

Form C- Student Learning Objective (SLO) Feedback Rubric can be used to provide feedback to teachers at all contract levels on the SLO process. This form is designed to provide teachers with a score for the percentage of students meeting their growth targets, and an engagement score for how well the teacher engaged in the process. The two scores can be combined for an overall score. This form is designed to be used in a formative context.

Form D- Informal Observation Form can be used with Annual GBE, Continuing GBE, and Continuing Recertification Teachers. This form is designed to provide teachers with informal feedback regarding their practice.

Form E- Modified ET3 is to be used with Annual or Continuing Contract Teachers undergoing Summative Evaluation using the SAFE-T instrument. Key Elements 1.A-1.E from APS 1 (long range planning) have been aligned to Sections I-VIII and Section X of the SLO template. Again, Section IX (growth targets) of the **SLO template is scored formatively** and is **not** reflected in the SAFE-T process.
