 - Indicators
 - High School Redesign
 - Assessments
 - High School Readiness (Grade 8)
 - Early Readiness (K-2)

With passage of Act 195 of 2016, South Carolina has established the overriding goal of the its public education system to be that every student graduates with world class knowledge, skills and characteristics as exemplified in the *Profile of the South Carolina Graduate*. The State Board of Education and Education Oversight Committee are meeting to discuss the entry and exit points of the K-12 public education system to highlight what we know about our children's readiness for learning and their preparedness for college, careers and citizenship.
