2013–14 List of Districts That Do/Do Not Allow SES Providers Use of Their Facilities

It is the decision of each school district whether to allow use of their school facilities by Supplemental Educational Services providers. The following listing shows the determination of each school district regarding the use of its facilities. **SPECIAL NOTE:** For districts that allow the use of their schools/buildings, approved providers must **first** contact the Title I Coordinators when setting up services due to possible limited space, charges, district board policies, etc.
