

Task Title: Electrical Circuits

Grade Band: 3-5

Item	Standard	Extended Standard	Indicator
1	4-5 - The student will demonstrate an understanding of properties of light and electricity.	The student will demonstrate an understanding that light and electricity have different properties and can be affected by different materials.	4-5.6 - Summarize the functions of the components of complete circuits (including wire, switch, battery, and light bulb).
2	4-5 - The student will demonstrate an understanding of properties of light and electricity.	The student will demonstrate an understanding that light and electricity have different properties and can be affected by different materials.	4-5.6 - Summarize the functions of the components of complete circuits (including wire, switch, battery, and light bulb).
3	4-5 - The student will demonstrate an understanding of properties of light and electricity.	The student will demonstrate an understanding that light and electricity have different properties and can be affected by different materials.	4-5.6 - Summarize the functions of the components of complete circuits (including wire, switch, battery, and light bulb).
4	4-5 - The student will demonstrate an understanding of properties of light and electricity.	The student will demonstrate an understanding that light and electricity have different properties and can be affected by different materials.	4-5.8 - Classify materials as either conductors or insulators of electricity.
5	4-5 - The student will demonstrate an understanding of properties of light and electricity.	The student will demonstrate an understanding that light and electricity have different properties and can be affected by different materials.	4-5.6 - Summarize the functions of the components of complete circuits (including wire, switch, battery, and light bulb).

6	4-5 - The student will demonstrate an understanding of properties of light and electricity.	The student will demonstrate an understanding that light and electricity have different properties and can be affected by different materials.	4-5.6 - Summarize the functions of the components of complete circuits (including wire, switch, battery, and light bulb).
