## REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

North Charleston High School strives daily to provide a learning environment in which every student can reach his or her highest academic and social potential. We are committed to our goals of academic excellence and a safe environment that fosters learning.

During the 2008 school year, several positive growth factors were present that helped validate our movement toward academic success for all students, such as implementing each of the following: an HSAP coaching block, a school-wide literacy plan, and providing a weekly staff development session for teachers. Also, this year NCHS began working to meet the 10 key practices of High Schools That Work with the help of a school improvement coach.

Our students' academic successes are attributed to numerous factors. A school-wide literacy program has been implemented to assist students in becoming lifelong readers. Each ninth grader is scheduled in a double block of math and English to help remediate and enrich numerical and literacy foundation skills. A Teacher Coach and a Math Coach assist students and teachers through modeling, demonstrating, tutoring, and staff development. An after-school tutoring center provides opportunities for special remediation and tutoring skills to all students. NCHS school faculty decided to use positive incentives to encourage student attendance and academic achievement. Successful students were rewarded with lunch at Ryan's, cookouts on the front lawn, a school dance, and technology such as televisions and iPods.

North Charleston High is continuously striving to provide strategies for continuous academic improvement. Lack of parental involvement, students entering 9th grade 2-3 years behind in basic reading and math skills, an increasing transient student population, a decreasing pool of qualified teacher applicants, and teacher retention are seen not as major obstacles but as major challenges that must be addressed in order for North Charleston High to ensure continuous academic success for all our students.

The School Improvement Council is joining forces with school and district-level administrators to create and implement improvement strategies. The School Improvement Council is a diverse group of parents, students, teachers, and community members who work to improve academic achievement and reduce discipline issues. This year, the SIC has worked with the NCHS administration to create a uniform policy.

North Charleston High continually labors to develop and implement a support system that makes it possible for every child who enters school in the ninth grade to leave four years later with a South Carolina High School Diploma.
