REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The 2008-09 school year has been a rewarding time for Ware Shoals Jr/Sr High School. We are in our second year of implementing the High Schools That Work model of school reform. We believe this is what led to the high school receiving the state's Palmetto Gold Award for overall academic achievement and the Palmetto Silver Award for closing the achievement gap. We credit receiving these two prestigious awards to the hard work of our students, teachers, and administrators from the previous year. Three initiatives that we believe are the major reasons for our success are the after-school program, our remediation academies for Math and English, and our literacy program. We have continued these programs for this school year and still believe they greatly benefit our students' academic achievement.

Looking forward to the 2009-10 school year, the faculty has decided that the next High Schools That Work key principle on which we will focus will be high expectations for both students and faculty. We will begin with implementing high expectations for student behavior and with teachers increasing rigor and relevance in the classroom. We will also maintain an emphasis on reading, both inside and outside the classroom. All teachers will once again be asked to add one more piece of literature to their curriculum to help us reach our goal of students reading twenty-five books (2,500 pages) or more per year.

By adopting the High Schools That Work model of school reform, we believe that we have laid the ground work for continuous school improvement. If the achievements of the past year are any indication, Ware Shoals Jr/Sr High School will continue to be a place where students have the opportunity to reach their full potential and become respectful, productive, and responsible members of society.

Hans Wunch, SIC Chairman
