REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The mission of Mountain View Elementary in cooperation with the community is to provide a safe, positive environment where children build skills, knowledge, and character needed for lifelong learning. Mountain View Elementary is a warm, community centered school steeped in rich tradition. We are the only school in Greenville County to have received the Red Carpet Award three times. This award honors schools that provide warm, friendly environments where people not only are welcomed but also are made to feel part of the school family.

At Mountain View our focus is on the whole child. It is important for us to meet the needs of children on many levels. Not only are we concerned with the academic needs of the children, but we also address other issues such as safety and wellness. We have Zest Quest which is a school-wide wellness program. This program educates students, families, and faculty and encourages them to make healthy choices in life. Mountain View has received the Safe Schools award for the last four years. This award requires various safety lessons to be taught to students, families, and faculty. We encourage all community members to be a part of our school family by volunteering and being present for events in our building.

Mountain View is a learning community. We work in cooperation with area universities to train pre-services teachers. Our faculty members participate in many worthwhile professional development opportunities, such as the pursuit of advanced degrees, technology training, and integration of the arts. Eight teachers are currently National Board certified. Mountain View teachers have received the numerous grants and achievement awards and have presented at state and national conferences. Our principal received the Greenville County Principal of the Year award.

Every classroom at Mountain View is outfitted with computers and a Promethean Board. Our school offers many opportunities for professional development in the use and integration of technology in the classroom. Technology is also used as a major means of communication both in the school and throughout the community.
