Report of Principal and School Improvement Council

Fairforest Elementary's School's mission is to prepare our students for life-long learning through a challenging curriculum with open communication in a safe, respectful environment. In the 2011 – 2012 school year, the students at Fairforest worked hard to become well –rounded individuals by focusing on academics, the arts, and giving back to their community. Fairforest Elementary serves a richly diverse population. During the 2011 – 2012 school year, we saw an increase in the number of students who are receiving free or reduced meals, and the number of students who speak English as a Second Language continues to hold at about 40% of our school population. The faculty and staff at Fairforest Elementary School understand that the successes of our students are largely dependent upon the quality of teaching that occurs within our school. As such, the staff is driven to provide an engaging and challenging curriculum which is driven by the South Carolina State Standards, as well as our school and district improvement plans. In addition to quality planning, our school is enriched by a vibrant Boys and Girls Club program run through the Boys and Girls Clubs of the Upstate and a thriving partnership with Michelin North America. These two entities have allowed our students to receive additional academic assistance while simultaneously helping them to grow into respectful young women and men. The Fairforest Elementary School staff has a long tradition of their time and talents in ways that provide its students with the type of education that each child needs and deserves regardless of any outside factors. Our staff is committed to that end and is grateful for the continual support of the Spartanburg School District Six Board of Trustees, the District Administration, and the community at large. We know that by working together amazing things can happen for our students! We are excited to see the wonderful things our students will accomplish during the 2012 – 2013 school year.

ESEA/Federal Accountability Rating System

In July 2012, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.
