REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Nestled in the heart of downtown Columbia, South Carolina, C. A. Johnson High School is an urban high school endeavoring to educate all students and prepare them for extensive competition in a global society. To further meet the needs of our student body and surrounding community, C. A. Johnson High School is being transformed into a state-of-the-art Health Sciences Magnet. Beginning in August 2012, students will be able to select from 5 career pathways in the health care industry. The pathways include Health Science, Health Informatics, Biomedical Research & Technology, Food Science & Dietetics, and Sports & Fitness Management. Partnerships with local hospitals and major postsecondary institutions will afford our students the opportunity for extended learning opportunities, health sciences industry certification, job shadowing and internship opportunities, dual credit courses, and field experiences in various health care settings. Facilities renovations will also foster an educational environment where students can gain practical real-world experience prior to integrating into a professional setting.

Transforming to a Health Sciences Magnet is just one of the ways C. A. Johnson High School seeks to provide students with the educational foundation needed to ensure a promising future. Increased academic achievement remains another critical point of focus. This year students, faculty, and staff have made significant achievements to enhance the rich legacy of C. A. Johnson. The C. A. Johnson JAG (Jobs for America's Graduates) program was selected as a 2012 Lead Agency. Additionally, two C. A. Johnson teachers received their National Board Certification. One of the two teachers was selected to be the sole representative at the White House for the state of South Carolina's newly National Board Certified teachers. Faculty and staff members have been afforded a strategic professional development framework which focuses on literacy, explicit direct instruction, and the effective use of data.

The students of C. A. Johnson High School have also made notable strides in their pursuit of excellence. The senior class of 2012 was the largest graduating class since 2008. The concerted effort to increase student achievement will continue into next year when Studio Art, Biology, and Statistics will be added to our Advanced Placement listing. Additionally, the administrative staff will continue to increase the overall enrollment in honors and advanced placement courses.

Athletically, our teams were competitive on the regional level. This year the varsity girls' basketball team repeated their regional championship and several of our athletes were received regional and state awards.

While progress is evident, the school and district administrators continue to address significant areas of concern. One of the primary areas of concern is a relatively high transient rate within our student population.

Dr. Deborah Belton, SIC Chair
Mr. Nathan White, Principal
