REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

William S. Hall is a residential facility that serves students requiring inpatient mental health services. Unless medically inadvisable, students are expected to participate in educational activities which will prepare them to meet South Carolina learning standards and score as well as their abilities allow on state standardized tests. Our academic program focuses on helping students stay current with their academic skills or develop strengths that will enable them to function more effectively in their regular school programs when their hospital stay is completed. Each student is offered the opportunity to participate in the Richland One approved core course curriculum taught by certified teachers during his/her hospital stay. An E2020 learning laboratory is also available to supplement classroom educational opportunities and to help students who have splintered skills or need enrichment activities. Because of the small number of students tested at our facility, our scores remain statistically insignificant; however, we have noted a steady increase in the number of students scoring basic and above basic on HSAP and PASS. We have also experienced an increase in the number of students receiving passing scores on EOC tests.

This year we have focused on how to raise minority students' achievement through the use of Culturally Responsive Teaching. Staff participated in professional dialogue and implemented various teaching strategies in their classroom instruction. At the beginning of the year, teachers utilized data on past and current students to determine areas of strengths and weaknesses and developed strategies to focus on the areas that they determined as deficient. Staff was also involved in training on how to be proactive in preventing crises from occurring and how to intervene when a crisis occurs with students.

We continue to explore ways to ensure that students are provided with rigorous instructional experiences in a nontraditional school setting. Hall school staff has worked in conjunction with hospital staff to improve programming to benefit the educational and emotional needs of the students whom we serve.
