## Report of Principal and School Improvement Council

For the 2012/13 school year, Bluffton Elementary and Early Childhood Center focused on school safety and security as well as continued data analysis. We also reviewed ways to enhance our technology integration. We started the year with an additional component of training for cyberbullying for staff as well as students. As the year progressed we reviewed our crisis plan and worked with the district to fine tune our areas of weakness. In the wake of the Newtown school shootings, we worked in conjunction with our local police departments, district officials, and community stakeholders to walk through a mock scenario of an intruder. After this scenario we analyzed our response and updated our plan as necessary. We will continue this analysis this fall with active shooter training with staff in August.

After the report rating of a B, we closely reviewed our MAP and PASS test scores to define the areas of concern. It was determined that science was the weakest area. The grade level teams created a long range plan to pinpoint the identified strands in their instruction. For the fall of 2013, we will be adding a science lab as a special as well.

Since we are a technology school, we added a "green screen" and an additional special for Media Arts. For parent communication we expanded our Facebook page and added Remind101, an online text-based system. We are continuing to focus on this area with the addition of Bring your Own Device for upper grades, a partnership with CalState for animation, and iPad minis for ESOL.

**ESEA/Federal Accountability Rating System**

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.
