Report of Principal and School Improvement Council

The 2011-2012 school year was another successful year at Lesslie Elementary School. Our school was awarded the Palmetto Silver award from the South Carolina Department of Education for attaining a high level of absolute performance or growth on the Palmetto Assessment of State Standards. We are extremely proud of the hard work of our students, parents, teachers, and staff.

Our high quality faculty continued to increase their skills by participating in book studies, workshops, attending a variety of summer courses and staff development throughout the school year. These efforts allowed our teachers to hone their professional skills and improve instructional teaching strategies. The professional development resulted in an increase in the effectiveness of differentiated instruction, utilizing common assessments, analyzing data, and implementing best practices in the use of technologies. Several teachers earned advanced degrees in the field of education while others are pursuing advanced degrees and National Board Certification.

Our PTO remains creative, focused, and supportive of students and staff. Their efforts have assisted us in acquiring additional books, technology, staff development and instructional supplies and materials. Our PTO has volunteered numerous hours of time and service to our students, teachers, and staff. Our PTO and SIC have been integral in assisting us to communicate the mission, goals and vision for Lesslie.

The Lesslie faculty and staff will continue to develop innovative strategies to address the individual needs of all students. Lesslie Elementary School remains committed to providing students with learning opportunities that will meet the needs of the 21st Century Learner.

ESEA/Federal Accountability Rating System

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.
