REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Pacolet Elementary School is a diverse rural school located within the town of Pacolet. The school serves over four hundred students: pre-kindergarten through fifth grade. Pacolet Elementary School offers a three-year-old child development center coupled with a full day four-year-old kindergarten program to serve the needs of our community. During the 2012-2013 school year, our school motto, "Saddle Up For Success", was created through the collaboration of teachers, staff, parents, and students at Pacolet Elementary School and proved to be a driving force in our new initiatives.

One of our major initiatives for 2012-2013 was the continuation of a K-8 instructional model. Located on two campuses, two miles apart, students will progress from K4-8th grade with a sense of family and educational continuity that is created over the ten-year span. We are confident that our K-8 model created an educational atmosphere that will allowed our students to experience success both academically and socially. The K-8 instructional model brings teachers/staff/students together to improve curriculum, improve transitions, align field trip experiences, align school calendars, create student mentor programs and create a sense of family between the two campuses.

Our School Improvement Council (SIC) and Parent Teacher Organization (PTO) were very involved in the decision making at our schools. The members of these organizations included the principals, teachers, parents, and community leaders. The SIC and PTO members met quarterly to share concerns and ideas to improve our schools. As a result of the planning of these committees our instructional, volunteer and positive behavior programs throughout the year were enhanced and improved.

The continued use of the Measures of Academic Progress (MAP) assessments provided a vital tool to measure student progress for students in grades one through five. The results of MAP gave teachers and parents detailed information to determine each child's strengths and weaknesses in reading, language, and math. Analyzing these results allowed us to make instructional changes in order to benefit each individual student in an immediate and well-informed manner.

Every classroom is equipped with ActivBoards and computers, which empowered teachers to engage, educate, assess and motivate learners through interactive technology. All kindergarten and first grade students participated in a balanced literacy program lead by our school's Reading Specialist. This program provided students with intense small group instruction based on their individual needs.

The commitment of all stakeholders in the Pacolet community has assisted in the continued increase of student achievement, a positive school climate, and several school awards – Palmetto Silver Award, Publication Awards and individual teacher awards. It is with great PANTHER PRIDE that we share these accomplishments with you.

Kenny Blackwood, Principal
Cindy Anderson, SIC Chairperson
