## REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Our pride is showing at McCarthy Teszler School. We named our 2012-2013 Teacher of the Year, Angela Duckworth, who went on to be named the District Teacher of the Year. Academically, we continue to enhance our curriculum as we implemented Unique Learning System, a standards-based curriculum program designed specifically for students with significant cognitive, communication, physical, and/or sensory disabilities. Teachers have access to age and grade appropriate lessons, materials, and assessments that address the core subjects of reading, writing, math, science, and social studies. Technology continues to be a priority in instruction and communication. We have a school-wide initiative to have iPads in all classrooms. This initiative is supported by personal donations, local school organizations, Spartanburg County school administrations, and Spartanburg County businesses and civic organizations. To date we have been the beneficiary of 75 iPads and will continue to work towards the goal of 200 iPad donations by the end of next school year. We continue to enhance our instruction through the integration of technology with SmartTables, Activotes, and augmentative communication devices. Our newly formed Assistive Technology Team has done an amazing job of researching devices and equipment that are progressive in fostering communication by helping students produce language and giving a voice to those who are nonverbal or are in need of assistance in communicating their needs. As a part of our mission to enhance communication and language skills, we began a sign-language initiative. We introduce a new sign on a weekly basis by visual display and by providing a website link to parents to encourage them to reinforce this skill with their children. Our Leadership Team continues to lead our staff in professional development, promoting a positive school climate, and overseeing the implementation of our school action plan. The Leadership Team is also facilitating a two year book study that began this year. Each department is participating in an in-depth study of a book that is appropriate to their department. We continue to partner with the SC Deaf Blind Project to provide staff development focused on the needs of our visually and hearing impaired students. We invited special educators from the surrounding counties to join our Autism Consortium to become better equipped to handle the challenges of this growing population of students. Teachers are advancing their craft, and supporting their instruction through the writing and receiving of grants of which we have been the recipient of 12 this year. We received the Farm to School Grant from the state. School wide classes planted vegetables and fruits in raised gardens and tended them until they were harvested and then were able to enjoy eating the fruits (and vegetables) of their labor. This has promoted the awareness of healthy foods, healthy eating, and the importance of making good choices for good health. Our school year culminated with the graduating of a record nineteen graduates to post graduate programs. We are looking ahead to a new year of endeavors that will provide excellent instructional and therapeutic programming for our students. Cheryl Revels, Principal; Lisa Anderson, SIC Chair
