REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The Middle School of Pacolet is a diverse, rural school that serves over 211 students in sixth through eighth grades. With a small community school atmosphere, we offer students personal, one-on-one interaction with teachers, staff, coaches, and classmates while providing many learning opportunities found in larger schools.

One of our major initiatives for 2012-2013 was continuous support of our K-8 instructional model which brings teachers, staff, and students together to improve transition from elementary to middle school, share curriculum, align field studies and school calendars, create student mentor programs and a sense of family between the two campuses. Another major initiative for 2012-2013 school year was the continuation of the internationally recognized Olweus Bullying Prevention Program. Students participated in weekly meetings to discuss ways to prevent bullying behaviors. This program has proven it can reduce bullying and make schools safer, happier places for students to learn. Analyzing the results of Measures of Academic Progress (MAP) assessments allowed us to make instructional changes to benefit individual students in an immediate and well-informed manner. We continued offering math and reading enrichment classes at each grade level. A smaller teacher-student ratio allowed teachers the opportunity to build on individualized instruction that begins in the regular classroom. Students, parents, and teachers were pleased with students' success in these classes.

Middle School of Pacolet was the recipient of a state Palmetto Silver Award, one SC/NSPRA Awards for Excellence for public relations, and an Inquiring Minds: Reading to Learn and Innovate in Mathematics and Science (IQ-MS) Research Grant. This grant provided math and science teachers with training in literacy strategies to incorporate in math and science classes. The implementation of the First in Math Program gave students the opportunity to complete thousands of math problems in a competitive, challenging, and exciting way. Our school finished fourth in the state with five students finishing in the top five for their grade including South Carolina number one eighth grade player. Four eighth grade students finished second in the state in the eCybermission STEM Competition sponsored by the U.S. Army.

Our School Improvement Council (SIC) and Parent Teacher Organization (PTO) were very involved in the decision making at our school. As a result, our instructional, volunteer, and positive behavior programs throughout the year were enhanced and improved.

The commitment of all stakeholders in the Pacolet community has assisted in the continued increase of student achievement, a positive school climate, and several school awards – Palmetto Silver Award, First in Math Award, publication award, eCybermission award, and IQ-MS Research Grant. It is with great INDIAN PRIDE that we share these accomplishments with you.

Max Deaton, Principal
Tammy Stephens, SIC Chairperson
