REPORT OF SUPERINTENDENT

It is with tremendous honor and gratitude that I serve as Interim Superintendent of the Allendale County Schools. The district has established a special legacy of service to its students. Many Allendale County graduates have distinguished themselves in their professions and service to this community and throughout the state and nation. Despite some of the recent political and economic circumstances, the district can view with pride the accomplishments of many of its alumni. The Allendale County School District has a commitment to and is making impressive progress towards a return to historical levels of success. To this end, the adoption of the following theme speaks to that commitment.

“Why Not Allendale!!! It Begins with Me...Come See the Change”

Allendale County School District continues to build the capacity to deliver a high level of service to our students to enhance their achievement. Allendale County School District expects to see continued growth in student performance due to increased focus on analysis of data to improve instructional delivery. Reading and Math MAP data from 2013-2014 indicate that significantly more students continue to reach their growth targets than in the previous four years. There is a district-wide triple focus on: literacy strategies to achieve South Carolina Standards, differentiated intervention strategies, and instructional technology to develop emphasis around an emerging STEM (Science, Technology Engineering and Mathematics) program in grades 6 through 12. Teachers have received extensive and intensive professional development.

Teachers along with instructional coaches in both literacy and mathematics have collaboratively developed curriculum and pacing guides. The intent of our collaborative efforts are to increase teacher input to ensure that students continue to increase their knowledge as well as analyze and apply what they have learned. The district is beginning to see indicators of a shift towards higher levels of instruction, increased student ownership of their learning and a greater emphasis on assessment and the data it provides. To continue our momentum, it will take a commitment from all district stakeholders:

- The citizens of the Allendale-Fairfax community must make available, within its capabilities, appropriate resources and support to the community’s children.
- The board of trustees has the fiduciary responsibility to ensure that resources are used appropriately and make policy decisions that establish parameters for program implementation.
- The district and school administration is charged with creating a welcome environment of high expectations, increased performance, and effective accountability.
- Teachers must be prepared to deliver high quality instruction to All students, every day that is rigorous, engaging, and relevant.
- Students must take the responsibility to arrive at school as prepared and willing learners.
- Parents must take the responsibility to be engaged in their child’s learning process and participate in open, two-way communication with the school.

Every employee in the district has a specific role in inspiring
