## Report of Principal and School Improvement Council

The faculty and staff of Whitehall Elementary, A Global Communication School, are committed to serving children according to their individual needs and helping them develop to their fullest potential. In addition to a rigorous curriculum, we teach our students to respect their own and others' talents, skills, and cultural backgrounds. During the 2013-2014 year, Whitehall Elementary served 435 students in kindergarten through fifth grade.

Whitehall Elementary is fully accredited by the Southern Association of Colleges and Schools (SACS/CASI). The school's five-year improvement plan focuses on the following goals: 1) Increase student achievement for all demographic groups and at all levels on PASS, 2) Improve school climate by increasing the level of students' personal and social responsibility, increasing parent involvement and increasing teacher morale, and 3) Increase the teacher retention rate. Teacher professional development, analyzing student data and needs, and many other activities have been implemented to meet these goals.

Whitehall completed its second year as a Global Communication magnet school. It is the goal of Whitehall to develop global citizens by providing an intercultural education through language, technology for communication, and cultural awareness. Whitehall provides instruction in a second language (Spanish) for all students in Grades K-5, engages students with technology, and provides opportunities for communication and collaboration between its students and others across the globe, helping students learn how to communicate across physical, cultural, and socioeconomic boundaries. Instruction at Whitehall teaches students to be independent learners, encourages students to look deeper at their own thinking, processes and practices, develop behaviors, attitudes, and dispositions required for working in partnership with others, and guides students to analyze, synthesize, and apply what they have learned. These skills are extremely important for the future of our students who must be intrinsically motivated to better understand the world around them and use their knowledge for self-improvement. Global communication and collaboration is integrated into all K-5 instruction, and additionally a "Culture Club" for students in Grades 3-5 extends the opportunities for students to learn and understand more about their world.

On the 2013 Annual School Report Card issued by the State Department of Education (SDE), Whitehall earned an "Excellent" Absolute Rating for the third year in a row. Whitehall's Growth Rating was "Good." Whitehall earned a Gold Flag for general performance from the SDE. Whitehall also received an "A" letter grade from the ESEA – 2013 Federal Accountability System, which is the highest letter grade given to schools.

This year, Whitehall students participated in two Artist-in-Residency programs. One focused on Japanese culture which included calligraphy and Origami. The second program focused on sweet grass basket making skills and included the history and culture of these artisans. Student art was displayed throughout the school and community. Students also had numerous opportunities to participate in service learning activities to give back to the community.

Whitehall is proud of its accomplishments. Achievement results are the product of the sustained efforts and dedication from the faculty and staff, which remain committed to Whitehall's vision to develop responsible, reflective, and ethical students who are prepared to compete in a global society. Whitehall Elementary is "Educating Today's Children for Tomorrow's World."

**ESEA/Federal Accountability Rating System**

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the Federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.
