**Report of Principal and School Improvement Council**

During the 2013-2014 school year, Mill Creek Elementary School realized modest gains in student learning as measured by South Carolina Palmetto Assessment of State Standards (SCPASS). These modest gains led to an Absolute Report Card rating remaining at Average while the Growth Rating changed from Good to Average. Across the past five years, the Absolute Report Card rating improved from Below Average to Average. Similarly, the Growth rating grew from At-Risk to Average.

The central goal of continual school improvement is actively pursued through a limited number of carefully chosen strategies. First, parents and primary care givers are becoming more engaged partners in the education of our children. Engagement activities include but are not limited to frequent Parent-Teacher conferences, participation in Literacy Night learning sessions and taking advantage of opportunities to volunteer at Mill Creek. Second, teachers participate in specific professional development during the school day and afterschool. The principal actively participates with teachers in these opportunities for learning. He provides goals for professional development and conducts classroom observations to ensure that targeted best practices are integrated into instruction on a consistent basis. Third, the principal facilitates teacher collaboration through small learning communities that meet weekly to analyze student work samples and plan for next steps in the teaching and learning process.

Multiple data sources are used to assess how well Mill Creek Elementary is meeting the goal of improved student learning. As an example, the MAP test is administered to students in grades two through five three times each school year. Outcomes from these assessments are used to identify students who need extended learning experiences as well as children who would benefit from re-teaching using different instructional strategies. Teacher made assessments are completed on a weekly basis to ensure that necessary modifications in instruction are put in place with minimum loss of valuable instructional time. Together, these assessment tools constitute a coordinated strategy for monitoring and modifying efforts to improve the learning of each student at Mill Creek Elementary.

Data analysis is an ongoing process. A review of MAP data reveals students in grades two through five have realized significant gains in Reading and Math. The scoring of student Research Projects revealed measurable growth in research skills that are vital to mastery of expectations embedded in Common Core State Standards.

Mill Creek Elementary must address substantial challenges in order to realize continual improvement in student learning. First, children must develop a higher tolerance for sustained reading. This is especially applicable for non-fiction texts. Second, the principal and faculty must model for students and then, expect students to engage in critical thinking, justification for conclusions as well as student-student collaborations for problem solving.

**ESEA/Federal Accountability Rating System**

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the Federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.

<b>Overall Weighted Points Total</b>	<b>67</b>
<b>Overall Grade Conversion</b>	<b>D</b>

Index Score	Grade	Description
90-100	A	Performance substantially exceeds the state's expectations.
80-89.9	B	Performance exceeds the state's expectations.
70-79.9	C	Performance meets the state's expectations.
60-69.9	D	Performance does not meet the state's expectations.
Less than 60	F	Performance is substantially below the states' expectations.

**Accountability Indicator (Title I Schools)**

Mill Creek Elementary has been designated as a:

	Title I Reward School for Performance - among the highest performing Title I schools in a given year.
	Title I Reward School for Progress - one of the schools with substantial progress in school subgroups.
	Title I Focus School - one of the schools with the highest average performance gap between subgroups.
	Title I Priority School - one of the 5% lowest performing Title I schools.
	Title I School - does not qualify as Reward, Focus or Priority School.
X	Non-Title I School - therefore the designations above are not applicable.
