Printed versions are available from school districts upon request.

**REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL**

Lockhart School met successes and faced challenges during the 2013-14 school year. New programs and activities were implemented, while successful programs from the previous year were continued.

Lockhart School received an ESEA Federal Accountability rating of C and a state report card absolute rating of average. At the middle school level 100% of the eighth grade students enrolled in Algebra I for high school credit passed the End of Course Exam. Four teachers received grants to enhance learning in math, science, reading, art, and music. In order to increase student achievement in science, all middle school students took a STEM class in addition to their regular science classes. Elementary students participated in various aspects of building a Reading Garden in the school yard to enhance their science studies.

Lockhart School became a Title I school for the first time, which allowed us to provide new technology, increased professional development, and parenting workshops. In addition, Title I allowed us to provide a teacher assistant who worked with small groups of both struggling and advanced learners at the elementary level.

Increasing student achievement in all content areas at all grade levels is a challenge we face. Another challenge is to regain the high morale and sense of school pride that was experienced in the past. Both internal and external stakeholders continue to work to provide data-driven, researched-based instruction and to implement initiatives designed to build and maintain school pride.

As the school year closes, we plan to meet our challenges proactively. We will continue to hold ourselves to the high standards of the past, while looking to the future.

Tammy Childers, School Improvement Council Chairperson

Betsy Trakas, Principal
