Revision History

Updates as of January 2026 with PS State Reporting version 26.1.2.0

Corrected typo for Immigrant Funding Exception, Home Based explanations. Updated all relevant mentions of Special Programs to Student Programs.
Removed tables for MLP codes and replaced with link to officially published reference doc.
Updates and additions for the following fields and values: <ul style="list-style-type: none">• SC Student Information > Foster Status Screener: NA – Not In Foster Care• SC-WBL to Attendance Codes• ELP Score on WIDA Alternate Screener: removed 1, 2, added <3• Added exit code W43 (Out-of-Country)
Updated contact info for At Risk Programs (EEDA Grants) list on the Student Programs Codes table.

Introduction

PowerSchool (PS) is the Student Information System (SIS) the South Carolina Department of Education (SCDE) provided to school districts as the main source for maintaining student data. The SCDE Data Collection Team works with PS developers to update data fields, values, and pages for accurate reporting. School- and district-level personnel input, validate, and maintain the data, which are later transferred via district and state APIs. The submitted data are used to fulfill SC state and national data reporting mandates.

Additional resources and information related to the implementation of PowerSchool in South Carolina can be found on the [SCDE PowerSchool website](#).

Using this Document

Navigational breadcrumbs at the start of each section correspond to the PS enhanced user interface released in June 2024.

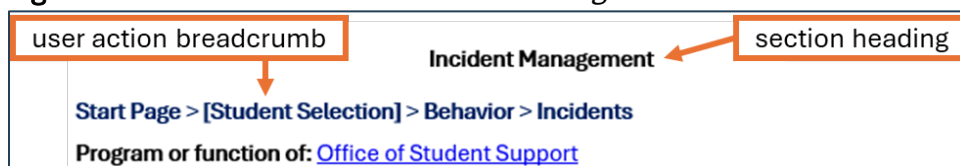

Navigational breadcrumbs within square brackets indicate a user action. For example, **[Student Selection]** indicates that selecting a student is needed to continue navigation.

PS pages are accessed from the district level or school level, and sometimes through both. Navigation that includes **District Management** is an indication to operate from the district level, while **School Management** means to change to school level.

Screenshots provided are from test servers with mock data.

Throughout this guide, the SCDE function or program office name is included for each subject area for content-related questions.

Figure 1. *Location of Breadcrumbs and Program Office Information*

To report eScholar problems or other technical issues not related to PowerSchool, submit an e-Support request through the SCDE Member Center.

Ed-Fi publishing issues should be addressed through Level Data validations first with follow-up to PowerSchool support, if needed. Email the PS case number to the Data Collection Team (PowerSchool@ed.sc.gov) when the case needs urgent attention or has been pending more than 48 hours.

Attendance

Attendance Codes

[Start Page](#) > [School Management](#) > [Attendance](#) > [Attendance Codes](#) > [\[Edit Attendance Code\]](#)

Program or function of: [Office of Student Support](#)

The SCDE issues standardized *attendance codes* for PowerSchool. All codes must conform to the list found in the [PowerSchool Attendance Setup](#) guide; non-approved codes will be flagged as invalid. Contact the [Office of Student Support](#)'s Chronic Absenteeism liaison with questions about attendance codes.

Associated Procedures for Attendance Codes

The **Present** attendance code must be listed first with the sort order of 1. This is essential for PowerTeacher/PowerTeacher Pro gradebooks and PowerSchool attendance functions to work properly. The sort order for the remaining codes is a district decision.

Associated Documentation for Attendance Codes

The [PowerSchool Attendance Setup](#) guide governs data entry for all attendance-related pages.

Note: The code you set up for 'Present' (usually just a blank) should be given a sort order of 1 and be listed first. This is necessary to allow PowerGrade to take attendance properly.
*Rules for assigning the single-letter code: The single-letter code should be a letter from A to Z, a digit from 0 to 9, or a blank (blank should be used to denote 'Present'). Do not use the same letter for two different attendance codes. Capitalization is not taken into account; thus "A" and "a" are equivalent.

Attendance Code Categories

[Start Page](#) > [School Management](#) > [Attendance](#) > [Attendance Code Categories](#)

Attendance code categories are used to group attendance codes for easier reporting and searching. To ensure accurate data, these categories must be entered correctly. The following SCDE-approved categories must not be modified and new categories must not be added without written approval from the [Office of Student Support](#).

Attendance Conversions

[Start Page](#) > [School Management](#) > [Attendance](#) > [Attendance Conversions](#)

Attendance conversions are frameworks that tell the system how to interpret attendance codes numerically. These calculations are critical for accurate Average Daily Attendance (ADA) and Chronic Absenteeism reporting. After creating an attendance conversion, individual items (rules) within the framework can be adjusted.

Full-Time Equivalencies (FTE)

[Start Page](#) > [School Management](#) > [Attendance](#) > [Full-Time Equivalencies](#)

Full-time equivalencies (FTEs) determine the attendance value a student receives for instructional time. FTEs impact attendance and membership reports.

- The FTE code **Full Time** is required for all SC students.
- The default Attendance Conversion is **TimeDay** for the **Full Time** FTE code.

Calendar

Bell Schedules

[Start Page](#) > [School Management](#) > [Scheduling](#) > [Bell Schedules](#)

Program or function of: [Office of Federal & State Accountability](#)

The bell schedule is the order of in-session periods on a given day and impacts attendance and membership reports. It determines the start and end time for the day and each period during the day. Bell schedules must be assigned to an attendance conversion method to calculate attendance for the day. Attendance conversion methods in SC must be prefixed by “SCDE Attendance”, e.g., “SCDE Attendance Half-Day”.

Only one bell schedule may be assigned to a given day. There may be different bell schedules for different days, such as:

- Regular bell schedule
- Half-day bell schedule
- Two-hour delay bell schedule

Figure 5. *List of Bell Schedules*

New Bell Schedule

Set up a new bell schedule by providing a name and an Attendance Conversion Method. **Do not set up bell schedules until after committing the master schedule.** This will cause a master schedule to be re-committed, the bell schedules to lose reference to the scheduled periods, and attendance can't be taken.

Edit Bell Schedule Item

Clicking **Edit Schedule** displays the start and end times for each period, including duration, in each bell schedule. Periods may also be added to a bell schedule using this function. *Bell schedule items* indicate the start and end times for each period, which can be used to calculate daily attendance and average daily attendance. All periods must have an associated bell schedule.

Calendar Setup

[Start Page](#) > [School Management](#) > [Scheduling](#) > [Configure Calendar](#)

Program or function of: [Office of Federal & State Accountability](#)

The PowerSchool calendar drives which days attendance may be taken. For attendance to be taken for in-session school days, assign a bell schedule and cycle day.

Associated Procedures for Calendar Setup

Ensure instructional days are marked In-Session and have a Membership Value of 1 for accurate funding reports. There must be 180 in-session days in the calendar. Section §59-1-425 of the SC Code of Laws defines the beginning and length of the school term; make-up days; waiver; and instructional days.

Demographics

Start Page > [Student Selection] > Student Profile > Demographics

Along with core PowerSchool fields surfaced on the Demographics page, several fields specific to South Carolina are also included: Gen (Jr., III, etc.), Nickname, Alias Name.

Associated Procedures for Demographics

The SCDE requires population of the **Legal Name** and **Sex** fields. Enter them using a birth certificate as your official source. If a birth certificate is not available, use an official document sanctioned by your district/school policies. Do not enter a nickname in quotation marks beside the student's name. Instead, navigate to the **Nickname** field on the Demographics page to enter that information. If the student has a preferred name, use the **Preferred Name** fields.

Incident Management

Start Page > [Student Selection] > Behavior > Incidents

Program or function of: [Office of Student Support](#)

Discipline and truancy data are coded on the PowerSchool Incident Management page and are required for federal and state reporting. Incidents entered on a regular basis – no later than a few days after the incident – provide more accurate information about the students involved and the school or district administrators’ actions.

Associated Procedures for Incident Management

Do not create additional incident sub-codes in the Incident Management system. For any specific type of incident not already listed, contact the [Office of Student Support](#).

For truancy incidents, an individual entry per student is required. To ensure that truancy data is valid for reporting at state and federal levels, *do not use one code entry for multiple students*.

When two or more offenders are involved in the same *discipline* incident, all students are added to one reported incident.

Associated Documentation for Incident Management

Associated Procedures

Districts define when students should be excluded from class ranking, e.g., summer, fall, or winter graduates. For students whose diploma types are not set to **F - State of SC Diploma** on their SC Student Information pages, select **Exclude From Class Ranking**.

The screenshot shows the 'Other Information' section of a student profile. It contains several input fields and dropdown menus. A red arrow points to the 'PHLOTE' dropdown menu, which is currently set to 'PHLOTE'. Other fields include 'Equip Flag', 'Date Of Entry Into USA' (with a calendar icon), 'AFDC Application Number', 'Primary Language Code' (set to 'SPN - Spanish'), 'Secondary Language Code', 'MESA', 'AFDC Approved', 'Exclude From Class Ranking' (checkbox), 'Fee Exemption Status' (set to 'Student Not Exempted'), 'Other Alert', and 'Other Alert Text'.

Scheduling

Student course enrollments are subject to [Regulation R.43-234 VII-D](#), “Defined Program, Grades 9-12 and Graduation Requirements,” which stipulates:

1. Each district superintendent must verify the accuracy of course records for students.
2. The name and code number of every course that each student takes must be entered into the student data collection system (SIS) active master scheduler at the time the student takes the course. Courses may not be added to the student’s historical grade or course history (transcript) without first being entered into the scheduler.
3. Courses offered in non-traditional settings such as online courses, courses offered in conjunction with a college or technical college (i.e. dual credit) and courses offered by the school through the district, state, or another type of provider, must be included in the active master scheduler.

To ensure students have been enrolled into courses according to the regulation R.43-234 VII-D, the Enrollments History page includes the course scheduling history.

Courses

[Start Page](#) > [District Management](#) > [Courses and Programs](#) > [Courses](#)

Program or function of: [Office of Federal & State Accountability](#)

The Courses page is used to manage courses and course-related information.

Associated Procedures for Courses

Course Numbers and Names: Activate courses as needed for each year’s school course offerings. It is each district and school’s responsibility to ensure the current course codes and names reflect the SCDE approved course offerings as listed in the SCDE Course Code Database. This document standardizes course data collected for funding and accountability purposes.

Course Credit Hours: Regulation No.: 43-234 B – A school may award one unit of credit for an academic standards-based course that requires a minimum of 120 hours of instruction. A school may award one-half unit of credit for an academic standards-based course requiring a minimum of 60 hours of instruction and one-fourth unit of credit for an academic standards-based course requiring a minimum of 30 hours of instruction. The

unit of credit is reflected in the 8th character of the course activity code number of each course; i.e., Q = ¼, H = ½, W = 1, D = 2.

Credit Type: Credit types are codes used to label courses to facilitate tracking a student’s credits earned toward graduation requirements and other academic goals. Each course can have one or more credit types. For important policies, procedures, and other considerations, see the [Credit Type Update guide](#).

Table 16. *Credit Type Codes and Definitions*

Codes	Definition
A	English/Language Arts
C	Mathematics
E	Science
EE	Biology 1 (EOC)
F	Financial Literacy
H	US History and Constitution
J	Economics
K	US Government
L	Other Social Studies
P	Physical Ed or Jr ROTC
R	Computer Science/Keyboard
T	Foreign Language or CTE
X	Electives
ES	Elementary School*
MS	Middle School*
HS	High School

The **HS** credit type is important for IGP display/reports and Graduation Planner/Sets. **HS** must be the first credit type listed for all credit-bearing high school courses.

If a course meets several graduation requirements, enter more than one credit type. For example, a course unit could count for math, science, or an elective, depending on the student’s career path. Input **HS, C, E, X** in the **Credit Type** field on the course page. (Note the absence of spaces after each comma.)

GPA Added Value: **SC schools do not use added value points.** The [Uniform Grading Policy](#) provides the tables for points by course types: college prep (C); honors (H); advanced placement (A); dual credit (E); or IB (I), as indicated by the seventh character in the course code.

Cycle Days

Start Page > School Management > Scheduling > Cycle Days

Cycle days define the rotation of periods within a school's schedule if the rotation varies periodically. School parameters include the school's departments, days, facilities, and rooms, which are used for scheduling purposes. Additionally, cycle day names can be edited, which when combined with periods, create schedule expressions that indicate when a section is taught. For example, a school with a two-day rotation would have two days listed on the Cycle Days page.

Sections

[Start Page](#) > [School Management](#) > [Courses and Programs](#) > [Course Sections](#) > [\[Course Selection\]](#)

A section is an occurrence of a course, often called the class, in which a student is scheduled. Each course can have several sections meeting in different rooms and times and taught by various teachers. For example, a school has a chemistry course; however, because there are too many students for one class, there are several sections of chemistry. Two teachers instruct it over four different periods each. Thus, the school has eight sections of chemistry. Each section has a different number, usually preceded by the same course number to indicate it is the same chemistry course. Each section has an associated schedule expression, the combination of periods and days in which the section is taught. For example, a section of Biology meets fifth and sixth period on A and B days. The schedule expression 5-6(A-B) appears on the Edit Section page.

Associated Procedures for Course Sections

Virtual School Programs: For course sections offered through the Office of Virtual Education, on the **Edit Section** page, populate the **VSP Teacher Name** and **VSP Certificate No** fields. If the section is *not* a part of a Virtual SC Franchise program, then in the **Instruction Type** field, select **B – SC Virtual School Program**. This information is required for accurate school report card calculations.

Dual Modality: In a dual modality model, a single class includes two groups of students. One group is receiving in-person instruction while the other group is simultaneously participating in the same lesson by viewing the instruction online. Both groups are receiving the same content using the same activities. The instruction is considered dual modality even if the teacher is not differentiating instruction to the two groups of students.

Instruction Type: All instructional course sections must have the **Instruction Type** field completed to identify on-site/in-person and virtual instruction. Non-instructional course sections - those beginning with 0 - are not subject to this requirement. Instruction type data can be imported into PowerSchool. These data begin being reported yearly on the 45th day of school.

Section Type	Sections (3)	Section_Type	Section type for a section as assigned during the build process in PowerScheduler. Capturing it in PowerAdmin as part of the commit process for PowerScheduler is necessary to maintain scheduling by section types in Automated Walk-In scheduling. This field is populated by the ScheduleSections SectionType column.	
House	Sections (3)	House	Identifies the house to which the section is assigned, if any, and is necessary to continue support of scheduling students by house in Automated Walk-In scheduling. This field will be captured during the PowerScheduler commit process from ScheduleSections:House. There is no current effort identified to expose this field for editing or viewing in PowerAdmin.	
Team	Sections (3)		Team to which the section is assigned, if any, and is necessary to continue support of scheduling students by team in Automated Walk-In scheduling. Captured during the PowerScheduler commit process from ScheduleSections:Team.	

Display Name	Table & Number	Field Name	Description	Accepted Values
Close section at max	Sections (3)	MaxCut	Identifies whether enrollment of new students should be allowed after the max enrollment. This is necessary to support max enrollment in Automated Walk-In scheduling. This field will be captured during the PowerScheduler commit process from ScheduleSections: MaxCut.	
Maximum Load Status	Sections (3)		Identifies those teachers who are scheduled to teach more students in a day than is allowed by their contract.	Exempt; Lab; Non-Exempt
Instruction Type	S_SC_SEC_X	InstrType	Select the appropriate type of instruction for each section.	See Instruction Types table
Single Gender	S_SC_SEC_X	GenderRestricted	Check for sections populated with one gender group – all male or all female	Checked = 1; Unchecked = 0
Is this section a homeroom?	S_SC_SEC_X	Homeroom	Check if the section is a homeroom. (Displays on the SC08 report.)	Yes, No
VSP Teacher Name LN:	S_SC_SEC_X	VSP_LastName	Instructor's last name	
VSP Teacher FN	S_SC_SEC_X	VSP_FirstName	Instructor's first name

Table 23. Instruction Types

Value	Description	Instruction Delivery Mode
(blank) – Select One	Default value only allowed for non-instructional courses (those that began with a 0).	
A – Instructor Led	The teacher is physically present in the classroom providing in-person instruction to students.	On-Site/In-Person
B – SC Virtual School Program	The teacher provides instruction to students through the VirtualSC program. No other instruction types should be used for VirtualSC course sections.	Virtual
C – Online In-State	The teacher who provides virtual instruction in some capacity as part of a South Carolina school/district/state entity.	Virtual
D – Distance Learning	The teacher provides instruction for students physically located at another school location. For example, the teacher may be located physically at a television studio, yet teaching several groups of students housed in different schools or districts.	Virtual
E – Online Out-of-State	The teacher who provides virtual instruction to students is not part of a South Carolina school/district/state. This includes any course that is provided by a vendor (e.g., EdOptions, Edmentum, Florida Virtual).	Virtual
F – Hybrid	The teacher provides in-person and virtual instruction in some capacity as part of a South Carolina school/district/state entity. When the in-person instructional time does not meet the seat time requirement for the initial offering of a credit-bearing course, the section should be marked as Hybrid. This is not referring to dual modality.	Hybrid

Student Scheduling Setup

Start Page > [Student Selection] > Courses and Programs > Scheduling Settings

Set student scheduling preferences before creating or entering student course requests. By setting these parameters before students submit requests, they will be created with the appropriate future school and schedule year identifiers.

Associated Procedures for Scheduling Settings

The **Next School Indicator** drop-down list must be populated for the End of Year process to move the student to the next school for the upcoming school year.

The **Year of Graduation** drop down list should be the expected year the student will graduate. This value will print on the Work In Progress and Final transcripts. Be sure to update this value as the student matriculates through grade levels until graduation. It is calculated from the 9GR value + three years.

Figure 23. *Setting Up Student Scheduling*

The screenshot shows a web form titled "Scheduling Setup" for a student named "Abdy, Arthus Damazia" with ID "12 770010013200" and school "THS1". The form is divided into two main sections: "Required Settings" and "Optional Settings".

Required Settings:

- Next Year Grade:** A dropdown menu with the value "99" selected.
- Priority:** A dropdown menu with the value "1" selected.
- Schedule This Student:** A checkbox that is checked.
- Year of Graduation:** A dropdown menu with the value "2020" selected.
- Summer School Indicator:** A dropdown menu with the value "None" selected.
- Note for Summer School Admin:** A text input field that is currently empty, with a note below it stating "80 characters left".
- Next School Indicator:** A dropdown menu with the value "Graduated Students" selected.

Optional Settings:

- Next Year Campus/Building:** An empty text input field with an "Associate" button to its right.
- Next Year House:** An empty text input field with an "Associate" button to its right.
- Next Year Team:** A dropdown menu that is currently empty.

South Carolina State Information

[Start Page](#) > [\[Student Selection\]](#) > [Compliance](#) > [State/Province – SC](#)

The **South Carolina State Information** page contains tabs for the SC-specific fields used for federal/state reports and school funding.

State ID: This information comes from the State Unique Numbering System (SUNS) and is auto-populated after the required data is entered in the fields below when enrolling a student and a match is located:

- **Last Name**
- **First Name**
- **Grade Level**
- **Student ID (assigned by PowerSchool)**
- **Ethnicity: Hispanic/Latino (Y/N)**
- **Race**
- **Gender**
- **Date of Birth**

If data exist in the following fields, the match process more effectively returns State ID numbers for students:

- **Middle Name**
- **Name Suffix**
- **Social Security Number** (If entered, it must be formatted properly.)

Include this student in State Reporting: Select **Yes** when a student is receiving funding and should be included in PowerSchool reporting. Select **No** when a student isn't funded.

Exclude this student from Ed-Fi Publishing: Selecting **Yes** will delete the student's information from the Ed-Fi environment.

The default value is **No** for students with an enrollment in the current year. If it becomes necessary to report data on an inactive student who has never been enrolled in the current year, set this value to **No** and the record will be included in Ed-Fi publishing for the current year. Not all resources will publish for a student; however, the data elements needed for state reporting after a student has left are published.

SC25 Miscellaneous SC Fields Initialization

[Start Page](#) > [Data and Reporting](#) > [Reports](#) > [State Initialization](#) > [SC25 Miscellaneous SC Fields Initialization](#)

Run the SC25 Miscellaneous SC Fields Initialization only once at the beginning of each school year. This process will clear the active students' data values for the following fields:

- SC Student Information
 - English Proficiency Levels
 - Change all **M1** values to **M2**
 - Change all **M2** values to **M3**
 - Change all **M3** values to **M4**
 - Change all **M4** values to **8 – English Speaker with a Status of Former EL**
 - Change all **10** values to **11**
 - Change all **11** values to **AW**
 - Note: (If values “8 – English Speaker” or “9 – Native Speaker” are selected, they will not be initialized.)*
 - Instructional Setting
 - True Grade
 - Foster Home
- MLP
 - Annual Parent/Guardian Notification Date
 - Immigrant Funding Exception – In US School(s) 3 Full Academic Years or Less
 - MLP Program Service Delivery Models (PSDMs) (01 – 11)
- Homeless Student Information

Program or function of: [Office of Career & Technical Education](#) – Data Collection and Reporting

Reference the [CTE Data Collection and Reporting](#) page for the most current reporting requirements for CTE Data Collection. CTE data are collected to meet state and federal requirements, including the South Carolina Education Accountability Act of 1998 and the seven core indicators of performance for the Strengthening Career and Technical Education for the 21st Century Act (Perkins V). Additionally, these data are required for enrollment, placement, and the allocation of funds to local school districts for the support of career and technology education programs.

Associated Procedures for CTE

Concentrator Year Fields: The **Concentrator Year** fields are used to identify the semester and year a student became a CTE concentrator. The list of values changes yearly with a fall (FA) and spring (SP) value added for the upcoming school year. For a student completing in fall 2024, the value would be 'FA24'; for a spring 2025 completion, the value would be 'SP25'. The value 'PT22' (Prior to 22) is used in cases where students had become concentrators prior to the 2021-22 school year.

Completion Year Fields: The Completion Year field indicates the semester and year the student completed the required units in a state-recognized CTE program.

Early Childhood

Start Page > [Student Selection] > Compliance > South Carolina State Information > Early Childhood

Program or function of: [Early Learning and Literacy](#)

Early childhood education is a major strategic aim of the South Carolina Department of Education (SCDE). All children must be provided the opportunity to enter school prepared to succeed.

Associated Procedures for Early Childhood

All three- and four-year-old students in pre-kindergarten (PK) classes must be enrolled with the following settings:

- **Start Page > School Enrollment > Enroll New Student**
 - In the **Entry Code** drop-down list, select **Eligible for State Funding (E)**
- **Start Page > [Student Selection] > Compliance > South Carolina State Information**
 - In the **Include this student in State Reporting** drop-down list, select **Yes**.

All PK3 and PK4 students must have the appropriate EIA code: **EC3 – 3 Year Olds** or **EC4 – 4 Year Olds**.

Ensure the following fields are populated for PK3 and PK4 students on the SC Student Information page:

- **English Proficiency Levels**
- **Language First Acquired**
- **Language Spoken Most Often**
- **Primary Home Language**
- **Oral/Written Communication Languages**
- **Transportation Mode AM and PM**

Figure 27. Early Childhood Tab of Student Information Page

The screenshot shows the 'SC Early Childhood Data Entry' form. At the top, there are navigation tabs: Contacts, Chronic Absenteeism, Truancy, CTE, Early Childhood, SC Student Information, MLP, Read To Succeed, Precode, Students Not Tested, Transport, Work-Based Learning, and Privacy and Security. The form is organized into three main sections:

- Complete the following data for Pre-Kindergarten and Kindergarten:** This section includes dropdown menus for 'Low Birth Weight', 'Medical Care Source', 'Ed Level Mom/Female Guardian', 'Years Ed Mom/Female Guardian', and 'Countdown to Kindergarten'.
- Complete the following data annually for Pre-Kindergarten Only:** This section includes dropdown menus for 'Early Childhood Placement', 'Head Start', 'Class Curriculum', 'Family Literacy Services', 'Income Range', 'Days per Week Served', 'Family Literacy Years (child participation)', and 'Tuition paid by Parent/Guardian'.
- Complete the following data for Kindergarten only:** This section includes dropdown menus for 'Prior Child Care', 'Prior Provider', and 'Prior Class', all currently set to 'U - Unknown'.

Below these sections is a section for 'For CERDEP Students Only/DIAL 4 Scores'. It includes a 'Date Tested' field with a date picker and a table with columns for 'Score', 'Number', and 'Percent'. The table lists sub-scores: DIAL MOTR_SubScale, DIAL CONC_SubScale, DIAL LANG_SubScale, DIAL Self_SubScale, and DIAL SEmot_SubScale.

EFA/EIA Classification Information

Start Page > [Student Selection] > Compliance > EFA Code Entry

Program or function of: [Office of Finance](#)

The [Office of Finance](https://ed.sc.gov/finance/) uses only the primary EFA (Education Finance Act) classification code for EFA funding.

Associated Procedures for EFA/EIA Classification

A student whose program of instruction meets the criteria for more than one EFA category should be counted in the highest weighted category for the **Primary EFA** field.

EFA and EIA Initialization

Start Page > Data and Reporting > Reports > State Initialization > EFA/EIA Initialization (post-migration)

Beginning each school year, the SIS administrator should run the EFA/EIA Initialization Process to reset to default the EFA primary code and effective start date for each K-12 student (pre-enrolled or currently enrolled) who has a value of **Yes** for the **Include this student in State Reporting** field. Only after the initialization process is completed should any staff member begin verifying, editing, or entering new EFA/EIA values for students. All values entered prior to initialization will be reset. For students enrolled after the EFA/EIA initialization is run, an initial EFA code and effective start date must be entered manually.

EFA Code Entry and EFA History

Start Page > [Student Selection] > Compliance > EFA /EIA Classification Information

Primary student EFA funding is based on values entered on the EFA/EIA pages.

Associated Procedures for EFA Code Entry and History

The various values for EFA fields can be grouped into 3 different categories: base programs, exceptional programs, and vocational programs.

Base Programs:

- K – Kindergarten
- P – Primary
- E – Elementary
- HS – High School

Table 32.

Code	Classification	Grade Span	Age Requirement
K	Kindergarten	Kindergarten	5 on or before September 1st
P	Primary	1-3	6 on or before September 1st
EL	Elementary	4-8	
HS	High School	9-12	
EM	Educable Mentally Handicapped		
LD	Learning Disabled		

Exceptional Programs - students receiving special education and home-based services

- AU – Autism
- EM – Educable Mentally Handicapped
- EH – Emotionally Handicapped
- HH – Hearing Handicapped
- HO – Homebound
- LD – Learning Disabled
- OH – Orthopedically Handicapped
- SP – Speech Handicapped
- TM – Trainable Mentally Handicapped
- VH – Visually Handicapped
- *OHI – Other Health Impair
- *TBI – Traumatic Brain Inj
- *PMD – Mental Disabi-Severe
- *DD – Developmental Delay

Vocational Programs - Career and Technology (CTE) students, grades 9 - 12

- VOC – First term of vocational training
- VOC2 – Vocational Second Semester

Note: Students coded with one of the Exceptional Programs values in the **EFA Primary** field must have an Individualized Education Plan (IEP) and be at least 5 years old before September 2nd of the current school year (with an exception for 4-year-olds receiving visual- and/or hearing-related services). PK3 students are not eligible for exceptional program funding. If an exceptional program value is selected, the **Instructional Setting** field on the **South Carolina Student Information** page must also be set to an appropriate value.

High achieving Add-On Weighting is awarded to students with a current-year entry on the High Achieving tab. The High Achieving History tab displays students’ historical high achieving data.

Associated Procedures for High Achieving

Students coded as **Gifted and Talented** must be classified as academically or artistically gifted and talented, be served in a gifted and talented class, and be in grade levels three through twelve. Students coded as **Advanced Placement (AP)** or **International Baccalaureate (IB)** must be in grades nine through twelve and enrolled in an AP or IB course.

Add On Weightings and Add On Weightings History

Start Page > [Student Selection] > Compliance > EFA/EIA Classification Information > Add On Weightings or Add On Weightings History

Schools receive additional (or “Add On”) funding when serving students with certain characteristics. Current and historical Add On Weighting status are displayed on the Add On Weightings tab in a read-only format.

Associated Procedures for Add On Weightings

SC23 Add-On Weightings Initialization

Start Page > Data and Reporting > Reports > State Initialization > SC23 Add-On Weightings Initialization

The SC Add-On Weightings Initialization should be run once at the beginning of the school year. The process creates a new Add-On Weightings record for students active on that day and sets the value for each of the fields for that record to “No”. Ensure that PowerSchool is set to the current school year prior to initializing. Once the process starts it cannot be stopped and could be a long process.

SC24 Add-On Weightings Update

Start Page > Data and Reporting > Reports > Compliance Reports > SC24 Add-On Weightings Update

The SC24 Add-On Weightings Update should be run periodically to update fields on the Add On Weightings page, especially after changes are made to the underlying data for those fields. The process creates a new record for students enrolled at least one day for the current school year with changes detected in any of the fields that affect Add On Weightings.

Academic Assistance: Academic Assistance Add On Weighting is based on student performance on previous year state standardized tests. Schools receive additional funding for students whose scores indicate they are not meeting the grade level learning objectives on assessments.

High Achieving: Students coded as Gifted and Talented must be classified as academically or artistically gifted and talented, served in a gifted and talented class, and in grades three through twelve. Students coded as Advanced Placement (AP) or International Baccalaureate (IB) must be in grades nine through twelve and be enrolled in a corresponding AP or IB course. Certain Cambridge courses may also apply. Schools receive additional funding for students meeting these qualifications.

Limited English Proficient (LEP) Students: The English Proficiency Levels field (S_SC_STU_X table) on the SC Student Information page determines student status for Limited English Proficient (LEP) funding. All proficiency codes for LEP students must be entered into the SIS within the first forty-five days of each school year.

A value of SSI can be assigned to any student receiving services only. These students don't need to be evaluated until they enter an educational program.

Poverty (Pupils in Poverty, PIP): There are several PowerSchool fields which can trigger Pupils in Poverty (PIP) funding. If the **Migrant** field on the SC Student Information page is checked, a student will receive PIP funding. If the **Foster Home** field on the SC Student Information page is set to Y, a student will receive PIP funding, and if the **Primary Night Time Residence** field on the Homeless Student Information page is set to **B, S, D, U,** or **H,** the student will receive PIP funding. In addition, there are several hidden PowerSchool fields that will trigger PIP funding.

There is no page or tab in PowerSchool on which an administrator can directly edit or add PIP records. However, a student's status is viewable on the **Add On Weightings** tab in the **Poverty** field.

Licensed Residential Treatment Facilities (RTFs): Based on Proviso 1.3, students served in Licensed Residential Treatment facilities (RTFs) for children and adolescents as defined

under Section 44-7-130 of the 1976 Code shall receive a weighting of 2.10. Enter the appropriate RTF code using the Student Programs page.

Immigrant Funding Exception – In US School(s) 3 Full Academic Years or Less: This field applies to immigrant children and youth who leave the country before three full years and return to the U.S. All immigrant children and youth are coded by using the **Birth Country** and **U.S. Entry Date** fields. When the SCDE calculates the number of immigrant children and youth for Title III, Part A immigrant funding, students who have a **U.S. Entry Date** of more than three years are not included in this calculation. However, sometimes immigrant children and youth leave the U.S. before the full three years and return later. This field may be selected for students who have left the U.S. and returned but have been in U.S. schools for less than three years total. These years do not have to be consecutive. This field will be cleared out annually, and districts will need to have this field updated by the 45 day count each school year as applicable to be included in the immigrant calculations for funding.

ML Program Service Delivery Models (PSDMs): The PSDM table on the MLP page in PowerSchool replaces the previous ESOL/ELLI Codes for services. If the English Proficiency code of 1.0 – 6.0, Alt ACCESS values 1.0 – 5.9, M1 – M4 is selected on the **SC Student Information Page**, then at least one MLP Program Service Delivery Model check is required. Each ML should have at least one, but potentially more than one, PSDM selected to accurately reflect the MLP services they are receiving within the school year. It is possible that these PSDMs change throughout the year, and any changes should be reflected in PowerSchool accordingly. These fields are part of the PowerSchool initialization process and are cleared annually once a district runs initialization.

First Record of MLP Services: This field is where the date of the first MLP services on record should be recorded. This includes evidence of MLP services from other districts in South Carolina or other states for transfer students. These data are often difficult to retrieve, but the data should be as accurate as possible. This field is critical for ensuring that LEAs monitor the amount of time it takes an ML to obtain proficiency in English and adjust programmatic components to support the needs of MLs. This date should be completed for all MLs by the 45-day deadline of the school year. Continue to enter this information for all newly enrolled students. This field must be completed for all MLs except those who have previously met the proficiency levels M1-M4 and 8 unless brought back into the MLP.

If a student has this information entered and is reclassified as M1, there is no need to delete data from PowerSchool. This field does not get initialized each year, meaning it remains in PowerSchool and does not need to be entered each year. If at any point evidence surfaces which indicates a date of MLP services earlier than the one entered, the field may be edited to reflect the new information.

Homeless Student Information

[Start Page](#) > [\[Student Selection\]](#) > [Compliance](#) > [Homeless Student Information](#)

Program or function of: [Office of Federal & State Accountability](#)

All school districts, except PUSD and DJJ, are required to identify all students experiencing homelessness by selecting the appropriate code for the **Primary Night Time Residence** field.

*Note: Emphasis is placed on accurately accounting for students who experienced homelessness at any point during the school year. Ensure that data reflect all students whose primary nighttime residence meet the criteria, including students who enroll as **unaccompanied youth**.*

Associated Procedures

The Homeless Student fields MUST be populated for the SCDE Data Collection.

The LEA Homeless Liaison and PowerSchool Coordinator should have policies and procedures in place to ensure accuracy. The LEA Liaison determines these procedures.

1. If a student is an unaccompanied youth, AND meets the McKinney-Vento definition of homeless, then you must populate both the **Primary Night Time Residence** and the **Unaccompanied youth** fields. Indicate where the student stays at night and set the **Unaccompanied youth** selection to Yes.
2. If the student is NOT homeless, verify that the default setting is blank.

Homeless status is based upon the following McKinney-Vento definition: A homeless student is a child or youth who lacks a fixed, regular, and adequate nighttime residence. This includes children and youth:

- sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
- living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
- living in emergency or transitional shelters, or are abandoned in hospitals;
- who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
- who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; or

- migratory students who qualify as homeless for the purposes of this subtitle because they are living in circumstances described above.

Unaccompanied homeless youth status is based upon the following definition:

- An unaccompanied *homeless* youth is a youth who is not in the physical custody of a parent or guardian and who meets the McKinney-Vento definition of homeless.
- There is no age range specified for an unaccompanied youth in the law. The upper age range is determined by what the state defines as school-aged. For South Carolina, this is twenty-one years of age and there is no lower age range.

If a family requests not to be identified as homeless, the district is still required to identify the student as homeless for data collection purposes. The family has the right to refuse services. To honor the family’s request, LEAs should have a process in place to ensure that these students and families are not included in outreach for McKinney-Vento programs or support services.

PowerSchool access to the Homeless Student Information screen is restricted to designated employees. The district’s Homeless Liaison is responsible for identifying homeless students and unaccompanied homeless youth and can authorize access to the Homeless Student Information screen.

Privacy and Security

[Start Page](#) > [\[Student Selection\]](#) > [Compliance](#) > [Privacy and Security](#)

Program or function of: Information Technology – Research and Reporting

The South Carolina Department of Education (SCDE) facilitates the collection of directory information to reduce the annual compliance burden on schools while still meeting federal requirements for local education agencies (LEAs). However, SCDE can only generate and provide the necessary data if schools give families timely notice of their right to opt out and accurately report which students should be excluded, using a format that SCDE can access and process.

Directory Information: According to the [U.S. Department of Education](#),

“Directory information” is information contained in the education records of a student that would not generally be considered harmful or an invasion of privacy if disclosed. Typically, this includes information such as name, physical and email addresses, telephone listing, date and place of birth, participation in officially recognized activities and sports, and dates of attendance.

A school may disclose “directory information” to third parties without consent if it has given public notice of the types of information which it has designated as directory information, the parent's or eligible student's right to restrict the disclosure of such information, and the period of time within which a parent or eligible student has to notify the school in writing that he or she does not want any or all of those types of information designated as “directory information.” [34 CFR § 99.3](#) and [34 CFR § 99.37](#).

For more information, see the PTAC publication [Protecting Student Privacy While Using Online Educational Services](#).

Military Information: Under the Every Student Succeeds Act (ESSA), each LEA receiving assistance shall provide access to the name, address, and telephone listing of each secondary student served by the LEA, unless the parent of such student has submitted a written request that the listing not be released. LEAs must notify parents of this option.

For more information, see the [ESSA Student Recruiting Information](#) page, Section 8025 (a)(1) and Section 8025 (a)(2)(A).

Precode

[Start Page](#) > [\[Student Selection\]](#) > [Compliance](#) > [Precode](#)

Program or function of: Assessment and Standards

The Precode page in PowerSchool contains student information specific to assessment rostering. The data are shared with testing contractors for pre-populating online testing systems or pre-assigning answer documents and test booklets to students via scannable (barcoded) test documents or labels. By coding these fields, the majority of online sessions and paper documents do not need to be manually entered by teachers and students.

Associated Procedures

Precode Initialization: The district-level PowerSchool administrator is responsible for running the start-of-year initialization process at your district *only once* per school year; follow the district administrator's instructions provided for schools in your district. The process runs for students who are currently enrolled in any selected school or enrolled at any time during the current school year.

The process *does not remove values* for students who have:

- an enrollment with the entry date and exit date as the same date in the current school year
- the following checkboxes selected:
 - Deaf-Blindness
 - Multiple Disabilities
 - Alternate Assessment
 - Braille

For selected schools and designated students, this initialization process deletes all other current year values on the **Precode** page. The initialization process will not “blank” field values stored for inactive students.

Inactive students who are enrolled and become active after the initialization process must be manually updated.

The **True Grade** and **Instructional Setting** fields are set to blank during initialization. Therefore, these fields need to be populated annually *after* precode initialization occurs. The Instructional Setting field also needs to be updated whenever a student's instructional setting changes. Errors in these fields will complicate federal and state reporting efforts.

Read to Succeed

[Start Page](#) > [\[Student Selection\]](#) > [Compliance](#) > [Read To Succeed](#)

Program or function of: [Early Learning and Literacy](#)

Act 284 (Read to Succeed Act) was passed in 2014 to address literacy performance in South Carolina. Read to Succeed is meant to increase the number of students statewide who can proficiently read and comprehend grade-level texts, particularly in the early grades.

If a student fails to demonstrate reading proficiency at the end of the third grade, as indicated by scoring the equivalent of 1 – Not Met on the SC READY Reading assessment, Act 284 directs that a third-grade student may be retained. A student may be exempt from retention if they meet one or more Good Cause Exemptions. The OELL is required to report on the number of third graders promoted to fourth grade and the number of third graders retained under the legislation.

The legislation also requires that districts offer a Summer Reading Camp (SRC) to third graders eligible for retention. A district may also include students from other grade levels who are not demonstrating reading proficiency. The OELL is required to report the total number of students served at summer reading camps and the number of students who successfully complete the camps by grade level. The district's Read to Succeed liaison or Summer Reading Camp coordinator will identify the teachers and location(s) for summer sessions.

Associated Procedures

Eligible for Retention: A third-grade student who is eligible for retention if the student fails to demonstrate reading proficiency at the end of the third grade as indicated by scoring the equivalent of 1 – Not Met on the SC READY Reading assessment.

Eligible for Summer Reading Camp: Students from any grade who demonstrate low reading performance may be considered eligible for Summer Reading Camp. Districts may determine eligible students using SC READY Reading performance, a district or school assessment, or classroom measures of reading performance. Districts may invite any student failing to meet reading proficiency to the Summer Reading Camp.

Good Cause Exemption: Third grade students who fail to demonstrate reading proficiency may be exempt from retention if they meet one of the Good Cause Exemptions. Complete this section for all third graders participating in SRC. Data needs to be provided on all third graders eligible for retention, regardless of whether they attend SRC. One or more exemptions may be selected.

Read to Succeed Initialization: The Read to Succeed Initialization process should be run only once during the school year. The process will clear all Read to Succeed data for a selected school and school year.

This includes the students based on enrollment status:

- pre-registered (enrollment status = -1)
- active (enrollment status = 0)
- transferred out (enrollment status = 2).

The following fields are cleared during this process:

Data on the **South Carolina Student Information** page includes various topics used for accountability and state reporting, including, but not limited to: English proficiency; student services; 504 plans; diploma, seals, and awards earned; the Employability Credential; Adult Ed and/or student dropout tracking; transportation; and other fields used at district discretion.

Associated Procedures

The fields from the page are listed here alphabetically.

Advisor: This field was previously used for entering advisor number and name for distribution of testing materials. The SCDE will not use this field for collecting the advisor name and number; instead, the values for the advisor name and number fields located on the Sections page will be used for precode purposes.

Adult Education Graduation Date: Enter the date only if the “Z” code is selected for Diploma Earned field.

Birth Country: Select a student's actual birth country. Use the list below for students born Outside Contiguous United States (OCONUS). The contiguous United States, also known as the United States mainland, does not include Alaska, Hawaii, or any other territories under the control of the United States:

- Alaska: (Blank) – United States
- Hawaii: (Blank) – United States
- American Samoa (AS): ZZZ998 – US Territory
- Guam (GU): ZZZ998 – US Territory
- Northern Mariana Islands (MP): ZZZ998 – US Territory
- Puerto Rico (PR): (Blank) – United States
- U.S. Virgin Islands (VI): ZZZ998 – US Territory
- Military Bases (Within the United States): (Blank) – United States
- Military Bases (Outside the United States): Select the country where the military base is located.

Note: Students born on military bases outside the U.S. may have a Consular Report of Birth Abroad (CRBA) or Certificate of Citizenship instead of a birth certificate.

Coordinated Early Intervening Services (CEIS): These are services provided to students in kindergarten through grade 12 (with emphasis on students in K - 3) who are not currently identified as needing special education or related services, but who need additional academic and behavioral support to succeed in a general education environment. Contact the Office of Special Education for further information.

Dropout Reason and Date: When transferring out a student using the **W36** dropout code, a dropout reason and date must be populated. Students in grades PK through 6 should not have values in these fields.

Graduation Cohort (Academic Goals and Earned sections): Code students graduating in the current year as follows:

- Seeking Diploma Type (for Transcript) – **F – State of SC Diploma**
- Diploma Earned – **F – State of SC Diploma**
- Graduation Date – a date within the current-year term

Employability Credential: For students on track to earn an Employability Credential, select **Seeking Employability Credential (for Transcript)** and populate the **Employability Credential Date** field so that credentials can be ordered prior to exit dates. This field identifies 12th grade students (including those with a True Grade of 12), as well as students who may have returned after 12th grade and are eligible to seek the credential. Ordering of paper employability credentials occurs in the spring.

For students who have earned the Employability Credential, select **Employability Credential Earned** and enter a date within the current-year term in the **Employability Credential Date** field.

SC Seal of Biliteracy: 11th and 12th grade students may earn one or more seals of biliteracy, and they may earn this award for both years. When adding a seal, the following fields are required:

- **Year**
- **Language Other Than English**
- **Proficiency Test**
- **Proficiency Score**
- **English Qualification**
- **Tier Earned**

To receive digital credentials, the **Postgraduate Student Email** field on the **South Carolina Student Information** page must include a valid student email address which the student can access after graduation.

Medicaid: School districts may access the SC Medicaid Web-based Claims Submission Tool to obtain the student’s date of eligibility for receiving Medicaid services or contact South Carolina Healthy Connections or the SC DHHS Provider Service Center (PSC) at 1-888-289-0709. Providers may also submit an online inquiry at the [SC Department of Health and Human Services Contact Info Page](#).

- **Medicaid Consent Date:** First eligibility date on which the student begins receiving services. This date never changes.
- **Medicaid Eligibility Date:** The most current eligibility date. Districts review and initialize and/or update this field (if the student leaves the system and/or returns to the system). If the child never leaves the system, the eligibility date remains the same. Often the Medicaid consent and eligibility date are the same.
- **Medicaid No.:** If there is a Medicaid No., then there must be Medicaid Consent Date.

Migrant: A SEA approved Certificate of Eligibility (COE) determines eligibility for migrant status while resident and enrolled in a school district.

A *migratory student* is a student who is, or whose parent, spouse, or guardian is, a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent or spouse in order to obtain temporary or seasonal employment in agricultural or fishing work:

- has moved from one school district to another; or
- in a State that is comprised of a single school district, has moved from one administrative area to another within such district; or

- resides in a school district of more than 15,000 square miles and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity.

Agricultural activity is defined as:

- any activity directly related to the production or processing of crops, dairy products, poultry or livestock for initial commercial sale or personal subsistence;
- any activity directly related to the cultivation or harvesting of trees; or
- any activity directly related to fish farms.

You can find the Certificate of Eligibility form on the [Accountability website](#).

No-Show Reason: A “no-show” student does not show at the school in which he/she has enrolled. If the student or parent of the student withdraws his/her enrollment, withdraw the student using the start date of school as the end date and select the reason. Contact Student Support with questions at 803-734-3057.

Postgraduate Student Email: This field is part of the SCDE Customizations plug-in. It records an email address where a student can be reached after graduation.

U.S. School Entry Date: When born outside the U.S., date of a student's first continuous enrollment in a 3K/4K program through 12th grade public or private school, including any homeschooling in grades 3K/4K-12, within the 50 United States (U.S.), the District of Columbia (D.C.), and the Commonwealth of Puerto Rico (P.R.), if known.

If not available, then the first date of entry into the U.S., D.C., or P.R. is acceptable.

Note: Students who attended Department of Defense (D.O.D.) schools in the 50 U.S. states, D.C., or P.R. and are entering a SC school don't need a U.S. School Entry Date.

D.O.D. schools outside the 50 U.S. states, D.C., or P.R. are treated as foreign schools, and students entering an SC school need a U.S. School Entry Date.

Universal Screener: Required for K and grade 1 students. Indicate if your school has assessed the student using a universal screener and if that student is at-risk of reading difficulty.

Program or function of: [Division of Information Technology](#)

Provide the requested “Students Not Tested” data for accountability and federal reporting purposes on this page. District test and report card coordinators should receive specific documentation with instructions for populating the fields for any students who miss or have invalid scores on applicable state-wide assessments.

Associated Procedures

If more than one reason for not testing is applicable, select the code with the highest value (lowest code number).

Validation is added to the page to prevent duplicate records from being added. A duplicate record is one where the School, Test Category, and Test are the same as another record. Although rare, a student can have two records for the same assessment.

Transportation

Associated Procedures

On the **SC Student Information** tab, populate or verify the **Medicaid No** field so that the school and district receive the funds to provide student transportation services. All CERDEP students must have current values entered for the **Medicaid No** and the **Transportation Mode AM** and **PM** fields. Populate the mode of transportation for four-year-old (PK4) students who are included in the CERDEP student programs (CDEP01 or CDEP02).

The SCDE doesn't collect Transport page data; however, your district may want you to use the fields.

Office Program: [Student Support](#)

The **Truancy** page displays student truancy data provided through the Truancy Update Process Report.

Associated Procedures

Truancy Update Process: Updates the absence information and records full day, Unexcused, Excused, and Out of School Suspension (OSS) absences on the **Truancy** tab.

To update the values, run the Truancy Update process on the State Reports page. This process will look for full day absences and update the S_SC_STU_TRUANCY_DETAIL_C table with daily absent values as well as daily tardy, dismissal, and early dismissal counts.

The absence counts will be current as of the date the update process is run for each student. Since this process uses a temporary table, multiple instances of this report can't run at the same time. When this happens, there will be a message in the report output indicating another report is running.

Work-Based Learning

[Start Page](#) > [\[Student Selection\]](#) > [Compliance](#) > [South Carolina State Information](#) > [SC Work Based Learning](#)

Program or function of: [Career and Technical Education](#)

The South Carolina Education and Economic Development Act (EEDA) data must be collected for ALL students participating in any state-approved Work-Based Learning (WBL) experience as defined in the [SC Work-Based Learning Implementation Guidelines](#). Data are reported on the Work-Based Learning page for experiences students have participated in throughout the school year. Note the two sections on the WBL page:

- The first section is found within a red box labeled “WBL Career Ready Qualifier used for Career Readiness Accountability” for the state’s accountability system affecting high school report card ratings.
- The second section below the red box includes 20 entry fields for reporting state-approved work-based learning experiences. These fields may report additional career-ready placements or “regular” work-based learning experiences the student completed.

Associated Procedures

Work Based Learning Review: Schools and districts should review data values for each student’s historical reports for learning experiences each year. WBL fields are not part of the SIS initialization of each student record each new school year.

Attendance Code: Students engaged in work-based learning will be marked present if their attendance is recorded with the code SC-WBL.

Student Programs

[Start Page](#) > [\[Student Selection\]](#) > [Courses and Programs](#) > [Student Programs](#)

Program or function of: [Special Education Services](#)

Students participating in district/school programs are identified on this page, regardless of a student's enrollment date. District SIS administrators should ensure all programs offered are added to this page.

Alternative School Program (ASP): A program "designed to provide appropriate services to students who for behavioral or academic reasons are not benefiting from the regular school program or may be interfering with the learning of others." (South Carolina Code of Laws, 1976 (as amended, 1990); Chapter 63, Title 59, Article 13; Section 59-63-1300). Students who are enrolled in alternative programs based on special needs – e.g. 504 plan or IEP – should not be included here.

Group Homes: Student is served in a group home or other group care facility and is receiving all educational services at the facility with facility school district contracting the services. The following changes have been in effect since 2013-14: Proviso for Juvenile Detention Facilities 13-14:1.10 (SDE: Instruction in Juvenile Detention Centers) It shall be the responsibility of the school district where a local juvenile detention center is located to provide adequate teaching staff and to ensure compliance with the educational requirements of this State. Students housed in local detention centers are to be included in the average daily membership count of students for that district and reimbursement by the Department of Education made accordingly.

Home-Based: A student who receives educational services at home. Ensure IEP documentation states specifically the student qualifies for Home-Based services. A special education home-based placement is a change of placement for a student with a disability to a home setting by his or her IEP team. An IEP team must determine whether such a placement is appropriate and constitutes the least restrictive environment in light of the student's disability. The amount of services for a home-based student must be individualized and meet the student's need for instruction, related services, transition services, assistive devices, and supplementary aids and services during the period of home-based placement.

Homebound: A student who receives academic services at home or a medical facility. Ensure documentation by a licensed physician certifies that a student cannot attend school as a result of an accident, illness, or pregnancy, despite the aid of transportation but may profit from instruction given in the home or hospital. (S.C. Code Ann. § 43-241 (Supp. 2001)) Any student participating in a program of homebound instruction or hospitalized instruction must be approved by the district superintendent or his/her designee using the revised Medical Homebound Instruction form (revised July 1, 2002) provided by the South Carolina Department of Education.

Immersion Language Program: The Office of Standards and Learning collects Immersion Programs student data for all grade levels, including:

- entry date into the program each year
- exit date out of the program each year
- designation of the language for immersion student

Residential Treatment Facility Definition: Student is served in a residential treatment facility and is receiving all educational services at the facility with facility school district contracting the services. (Part 1B, Section 1.61, H63 Department of Education, 2012-2013 Appropriation Act)

Associated Procedures

Requesting Additional Student Program Code(s): Contact the sponsoring SCDE office (e.g., Student Intervention, Magnet Schools) to request a unique student program code if one does not exist.

Exiting a Single Student from a Student Program:

- During initial entry, leave the Exit Date and Exit Reason blank.
- Edit these fields during the school year if:
 - The student is no longer being served in the student program.
 - The student transfers out of the current school. Note: After selecting the “Transfer Out of School” function, check the box to “Also transfer out of selected programs” to choose the program(s) for the student.
- At the end of the school year, enter the student’s school exit date in the Exit Date field.
- Indicate the Exit Reason based on documentation for each individual student or EY for end of year.
- Without an exit date, students will continue to appear active in the program(s).

*Student programs with the same name cannot have overlapping dates.

Student Programs: Not all programs in the [Student Programs Codes](#) table are offered in every district or school. District SIS administrators should add all offered student programs to the SIS. Ensure all added program codes match those listed in this table exactly. Incorrect entry of characters will create a different code from the one listed (e.g., lowercase instead of uppercase letters, letters for numbers: O-uppercase letter vs. 0-zero for a number).

Enrollment Information

[Start Page](#) > [\[Student Selection\]](#) > [School Enrollment](#) > [Enrollment History](#)

Program Offices: [Federal & State Accountability](#), Information Technology – Research and Reporting

The Enrollment History page includes the student’s current and historical school enrollment data with entry and exit dates for each enrollment within the district. Enrollment records must not overlap; the entry and exit dates of the current enrollment must be after all previous enrollments.

Associated Procedures

Code the **Entry Code** field as **Eligible for State Funding (E)** or **Ineligible for State Funding, EEI)** based on the consistency of the student’s status with funding requirements outlined in the Pupil Accounting Manual and other governing financial documentation.

Enter all attendance data prior to transfer out since it cannot be added later.

Enrolling New PK Students: Select the enrollment code of **Eligible for State Funding (E)** for all 3- and 4-year-old students.
