

Upcoming Changes in Development

Version 22.08.00

Changes Expected for the Following Months:

September/October 2022

- **PowerSchool Page:**
South Carolina Student Information page
- **Description of the change(s):**
 - New sections will appear on the page labeled as follows:
 - Ninth Grade Code
 - Academic Goals
 - Earned
 - Ordering and Recognition Information
 - Several fields will be relabeled within the sections listed above for clarity, and a description of each section listed above will be added.
 - Check boxes (instead of a dropdown) will be used for the following:
 - Seeking Employability Credential (for Transcript)
 - Employability Credential Earned
 - The current dropdown values for the Seals of Distinction and the South Carolina Seal of Biliteracy will be grayed out, and new “table view” areas (similar to what is used for “Students Not Tested”) will be added where the data will be entered for these awards. They will be titled as follows:
 - Diploma Pathways Seals of Distinction
 - SC Seal of Biliteracy

Implications of these changes:

- Districts should wait on data entry for the Seals of Distinction and the South Carolina Seal of Biliteracy to avoid having to reenter these data when the new Diploma Pathways Seals of Distinction and SC Seal of Biliteracy fields are released.
- Data for “Seeking Employability Credential (for Transcript) may need to be recoded when the Employability Credential check boxes are released.
