

STATE OF SOUTH CAROLINA
DEPARTMENT OF EDUCATION

MOLLY M. SPEARMAN
STATE SUPERINTENDENT OF EDUCATION

**Summary Report of Physical Education and Physical Activity
Minutes for Students in Kindergarten through Grade Five
as required by the
Students Health and Fitness Act of 2005 [§59-10-10(C)]**

School Year 2015–16

I. Statutory Requirement of the Report

- a. The Students Health and Fitness Act of 2005 [[§59-10-10\(C\)](#)] requires each South Carolina district to report on the amount of time allotted to students for physical education instruction and physical activity as referenced in the excerpt below.
 - i. [§59-10-10\(C\)](#): During each year of implementation of the reduced student to physical education teacher ratio, each district shall report to the State Department of Education by June fifteenth, the number of minutes of physical education instruction and the minutes of additional physical activity students receive daily with a total for the week. The report must be listed by elementary school and by individual class and grade level. The State Department of Education shall provide a summary of this information to the General Assembly by December first of each year of implementation.

II. Students' Health and Fitness Act of 2005 Requirements

- a. The Students Health and Fitness Act of 2005 [[§59-10-10\(C\)](#)] mandates that students in grades Kindergarten through 5 receive at least one hundred and fifty (150) minutes per week of physical education and physical activity. Of those one hundred and fifty (150) minutes per week, at least ninety (90) minutes are to be allotted to physical education as referenced in the excerpt below.
 - i. [§59-10-10\(A\)](#): The goal of this article is to provide every elementary student with the equivalent of thirty minutes of physical activity daily. Beginning in the 2006–07 school year, students in kindergarten through fifth grade must be provided a minimum of one hundred fifty minutes a week of physical education and physical activity. In 2006–07, a minimum of sixty minutes a week must be provided in physical education, and as Section 59-10-20 is phased in, the minimum time for physical education must be increased to ninety minutes a week.
 - ii. [§59-10-370](#) provides that each phase of implementation of the Student Health and Fitness Act is contingent upon the appropriation of adequate funding as documented by the fiscal impact statement provided by the Revenue and Fiscal Affairs, formerly the State Budget Office of the State Budget and Control Board. School districts are not mandated to fund implementation of the Act, nor minimum requirements of minutes, in the absence of state funding. In addition, Proviso 1.28 of the 2016 Appropriations Act grants districts flexibility in use of funds.

III. Survey Administration

- a. The South Carolina Department of Education notified all district instructional leaders and elementary school health and fitness coordinators about the mandatory Students Health and Fitness Act Annual Compliance Surveys via memorandum on April 28, 2016 (Appendix A) and follow-up electronic and phone communications. The Students Health and Fitness Act Annual Compliance Survey required all grades Kindergarten through 5 classroom teachers to provide the number of minutes allotted to their students per weekday and each week for both physical education and physical activity (Appendix B).

IV. School and District Survey Participation

- a. School: At least one classroom teacher from seventy-eight (78) percent (n=989) of South Carolina public schools with students in any or all grades Kindergarten through 5 responded to the Students Health and Fitness Act Annual Compliance Survey. Conversely, twenty-two (22) percent (n=281) of South Carolina public schools with students in any or all grades Kindergarten through 5 did not have at least one classroom teacher respond to the Students Health and Fitness Act Annual Compliance Survey (Appendix C).
- b. District: At least one classroom teacher from every school with students in any or all grades Kindergarten through 5 in thirty-nine (39) percent (n=32) of applicable South Carolina public school districts responded to the Students Health and Fitness Act Annual Compliance Survey. Conversely, sixty-one (61) percent (n=51) of applicable South Carolina public school districts did not have at least one classroom teacher from every school with students in any or all grades Kindergarten through 5 respond to the Students Health and Fitness Act Annual Compliance Survey (Appendix D). No Students Health and Fitness Act Annual Compliance Survey was submitted from thirteen (13) percent (n=11) of applicable South Carolina public school districts (Appendix E).
- c. The results reported below in Part V sections (a) and (b) were analyzed based on data collected from self-reported classroom teacher surveys (Appendices A and B). Although the statute refers to minutes per week, some school schedules are on two-week rotations, some teachers reported for multiple students (as opposed to overall minutes for any individual student), and some reported ranges. Therefore, results that were deemed outliers were discarded as appropriate for the purposes of Part V sections (a) and (b) below but were included for the purposes of Part IV sections (a) and (b) above to accurately reflect school and district participation.

V. Physical Education and Physical Activity Minutes

- a. Of the 8,341 respondents, eighty-four (84) percent (n=7,011) provided at least one hundred and fifty (150) minutes per week of physical education and physical activity during the 2015–16 school year. Conversely, sixteen (16) percent (n=1,330) did not provide at least one hundred and fifty (150) minutes per week of physical education and physical activity. The reported times, excluding outliers, ranged from zero (0) minutes to five hundred and sixty (560) minutes.
- b. Of the 8,341 respondents, thirty-three (33) percent (n=2,739) provided the minimum number of ninety (90) physical education minutes per week during the 2015–16 school year. Conversely, sixty-seven (67) percent (n=5,602) did not provide the minimum number of ninety (90) physical education minutes per week during the 2015–16 school year. The reported times, excluding outliers, ranged from zero (0) minutes to six hundred and thirty-five (635) minutes.

Appendix A: Students Health and Fitness Act [§59-10-10(C)] Memorandum

STATE OF SOUTH CAROLINA DEPARTMENT OF EDUCATION

MOLLY M. SPEARMAN
STATE SUPERINTENDENT OF EDUCATION

MEMORANDUM

TO: District Instructional Leaders
Elementary School Health and Fitness Coordinators

FROM: Dr. Anne Pressley, Director
Office of Standards and Learning

DATE: April 28, 2016

RE: Students Health and Fitness Act Annual Compliance Surveys

The Students Health and Fitness Act [§59-10-10(C)] requires each South Carolina district to offer students a specific amount of time for physical education instruction and physical activity as referenced in the excerpt below.

During each year of implementation of the reduced student to physical education teacher ratio, each district shall report to the State Department of Education by June fifteenth, the number of minutes of physical education instruction and the minutes of additional physical activity students receive daily with a total for the week. The report must be listed by elementary school and by individual class and grade level. The State Department of Education shall provide a summary of this information to the General Assembly by December first of each year of implementation.

The South Carolina Department of Education (SCDE) is collecting the statutorily required information through the following survey administered by the Office of Standards and Learning:

The ***Classroom Teacher Physical Activity Reporting Survey*** is to be completed by all individual kindergarten through fifth-grade classroom teachers at every school and can be accessed via https://scde.formstack.com/forms/student_health_and_fitness_act_teacher_1.

The SCDE will use the data collected from this survey to compile the Annual Summary Report required by law. This information will be shared with each district's identified district physical education contact. Each district should complete the survey no later than **5:00 p.m. on June 15, 2016**.

We sincerely appreciate your support and cooperation as we ensure adequate and appropriate physical education and activity are provided for our students. If you have questions regarding this information, please contact Dr. Christine Beyer via cbeyer@ed.sc.gov or (803) 734-2782.

Appendix B: Students' Health and Fitness Act [§ 59-10-10(C)] Survey Questions

1. Please list the number of minutes of physical education instruction your students receive on each day listed below:
Monday
Tuesday
Wednesday
Thursday
Friday
2. Based on the information listed above, what is the total number of minutes of physical education instruction your students receive weekly?
3. Please list the number of minutes of additional physical activity your students receive on each day listed below:
Monday
Tuesday
Wednesday
Thursday
Friday
4. Based on the information listed above, what is the total number of minutes of additional physical activity your students receive weekly?
5. If additional explanation is necessary, please include an explanation below.

Participation by School: Appendix C

At least one classroom teacher from seventy-eight (78) percent (n=989) of South Carolina public schools with students in any or all grades Kindergarten through 5 responded to the Students Health and Fitness Act Annual Compliance Survey. Conversely, twenty-two (22) percent (n=281) of South Carolina public schools with students in any or all grades Kindergarten through 5 did not have at least one classroom teacher respond to the Students Health and Fitness Act Annual Compliance Survey.

Non-responding schools are listed by district below.
