

RESULTS OF THE ADVANCED PLACEMENT (AP)* EXAMINATIONS 2022

Advanced Placement Results

Since 1984, each school district in South Carolina has been required to provide Advanced Placement (AP) courses in all secondary schools that include grade eleven or twelve. These classes prepare students for the national AP examinations. Students who score 3, 4, or 5 on an AP exam are, in many instances, considered qualified to receive credit for the equivalent course(s) at colleges and universities that give credit for AP exams. The data in this document are presented for high school students who participated in AP courses in the state's public schools and took at least one AP exam during the 2021–2022 school year.
