

STATE OF SOUTH CAROLINA
DEPARTMENT OF EDUCATION

MOLLY M. SPEARMAN
STATE SUPERINTENDENT OF EDUCATION

2019 Statewide School Districts Capital Needs Report

Provided to the SC General Assembly

Pursuant to § 59-144-130

December 31, 2019

The South Carolina Department of Education does not discriminate on the basis of race, color, religion, national origin, sex, sexual orientation, veteran status, or disability in admission to, treatment in, or employment in its programs and activities. Inquiries regarding the nondiscrimination policies should be made to the Employee Relations Manager, 1429 Senate Street, Columbia, South Carolina 29201, 803-734-8781. For further information on federal non-discrimination regulations, including Title IX, contact the Assistant Secretary for Civil Rights at OCR.DC@ed.gov or call 1-800-421-3481.

Introduction

This report is submitted to the General Assembly per S.C. Code Ann. § 59-144-130 which reads:

Every three years by December first beginning with the year 1998, the State Board of Education shall report to the General Assembly the projected five-year school facilities improvement requirements reported by the school districts, the needs identified since the last report, and those previously identified needs addressed since the last report.

This report contains four essential parts, including:

- A brief summary of the last school capital needs report prepared by the South Carolina Department of Education (SCDE) in 2016 and titled Capital Needs, 2016 Statewide Summary;
- A current (December 2019) summary of the five-year capital needs reported by school districts, including notation of what amount is funded and the funding shortfall, by district and for the entire state;
- A comparative analysis of school districts capital needs from 2016 to 2019; and
- Individual school district's detailed data as submitted to the SCDE Office of School Facilities (OSF) in November 2019.

The SCDE OSF surveyed the 81 school districts and several state agency education programs in November 2019. One school district and John de la Howe did not respond to the survey. Therefore, data is not included in this report for John de la Howe and the following school district:

Bamberg School District Two

Note that this report contains district self-reported data. The SCDE has not audited or independently verified data submitted by school districts.

2016 Statewide Capital Needs Analysis

Below is a statewide summary of capital needs data submitted by the individual school districts to the OSF in 2016:

A. Status

| | |
|--|---------|
| Student Population | 641,238 |
| Projected five-year student increase (2016–17 through 2020–21) | 29,845 |
| Existing Teacher Stations | 71,126 |
| Students/Teaching Stations | 9 |
| Existing Relocatables | 1,169 |
| Percent Relocatable | 1.6% |

B. Additional Teaching Stations Needed through 2020–21

| <u>Capital Need Type</u> | <u>Needed</u> | <u>Cost</u> |
|--------------------------|---------------|---------------|
| New Schools | 36 | \$955,248,920 |
| Renovations | 185 | \$595,280,741 |
| Additions | 95 | \$449,539,639 |
| Relocatable Units | 122 | \$8,015,000 |

C. Other Facility Needs

| <u>Capital Need Type</u> | <u>New</u> | <u>Renovation</u> |
|--------------------------|------------|-------------------|
| Gymnasiums | 25 | 50 |
| Cafeterias | 18 | 46 |
| Auditoriums | 14 | 18 |
| Media Centers | 16 | 54 |
| Administrative Areas | 19 | 27 |
| Teacher Work Areas | 145 | 1,622 |
| Miscellaneous | 28 | 141 |

D. Estimated Cost New and Renovated Facilities **\$2,757,704,521**

E. Scheduled or Planned Funding for Capital Improvements (local and state funds)

| <u>Year</u> | <u>Cost</u> |
|-------------|----------------------|
| 2016–17 | \$1,048,526,804 |
| 2017–18 | \$799,342,162 |
| 2018–19 | \$679,995,718 |
| 2019–20 | \$542,810,734 |
| 2020–21 | <u>\$468,364,005</u> |
| TOTAL | \$3,539,039,423 |

F. Funding Shortfall **(\$781,334,902)**
(line D minus line E)

2019 Statewide Capital Needs Report

Below is a statewide summary of capital needs data submitted by the individual school districts to the OSF in November 2019. Appendix A includes each district's detailed data. All costs are in 2019 dollars with no attempt to adjust for inflation.

A. Status

| | |
|--|-----------------|
| 2016 Capital Needs Estimate | \$2,757,704,521 |
| Capital Improvement Expenditures (2016–17 through 2018–19) | \$3,220,656,964 |
| 2018–19 Student Population | 682,847 |
| Projected Five-Year Student Increase (2019–20 through 2023–24) | 85,106 |
| Existing Teacher Stations | 55,259 |
| Students/Teaching Station Ratio | 12 |
| Existing Relocatables | 1,200 |
| Percent Relocatables | 2.2% |

B. Additional Teaching Stations Needed through 2023–24

| <u>Capital Need Type</u> | <u>Needed</u> | <u>Costs</u> |
|--------------------------|---------------|-----------------|
| New Schools | 55 | \$1,516,137,008 |
| Renovations | 438 | \$1,853,520,736 |
| Additions | 157 | \$3,059,829,842 |
| Relocatable Units | 96 | \$21,376,477 |

C. Other Facility Needs

| <u>Capital Need Type</u> | <u>New</u> | <u>Renovations</u> |
|--------------------------|------------|--------------------|
| Gymnasiums | 29 | 23 |
| Cafeterias | 23 | 47 |
| Auditoriums | 15 | 11 |
| Media Centers | 18 | 56 |
| Administrative Areas | 13 | 26 |
| Teacher Work Areas | 349 | 1,513 |
| Miscellaneous | 54 | 41 |

D. Estimated Cost New and Renovated Facilities \$7,846,182,235

E. Scheduled or Planned Funding for Capital Improvements (local and state funds)

| | |
|---------|----------------------|
| 2019–20 | \$831,806,588 |
| 2020–21 | \$768,600,376 |
| 2021–22 | \$914,664,465 |
| 2022–23 | \$729,025,925 |
| 2023–24 | <u>\$644,967,348</u> |
| TOTAL | \$3,889,064,701 |

F. Funding Shortfall \$3,957,117,535 (line D minus line E)

Capital Needs Comparison 2016 and 2019

A. Status

| | <u>2016 report</u> | <u>2019 report</u> |
|-----------------------------------|--------------------|--------------------|
| Student Population | 641,238 | 682,847 |

| What is the name of your district? | Please explain how you have addressed the increasing need for pre-K services: |
|---------------------------------------|---|
| Abbeville County School District | CERDEP Program |
| Aiken County Public Schools | Aiken County has established a number of innovative programs. Some of phased programs include evening school for Pre-K students, and our Waterford Upstart Program where we allow parents to check out a laptop and sign on to early childhood program. |
| Allendale County School District | We didn't have a need to increase our Pre-k services in Allendale County Schools. There is another Pre-K program in the County that is not through the school district which take up a good number of the student population for Pre-K services. |
| Anderson School District 1 | Anderson One has two half day 4K programs at every elementary school. The district has also added a full day 4K program in the Palmetto area where poverty is higher. |
| Anderson School District 2 | In FY16 the District became eligible for CDEP funding. We were able to utilize current facilities to establish 5 4K CDEP classrooms. |
| Anderson School District 3 | We have a total of 6 4K Teachers among our 3 Elementary Schools in our District in which we service anywhere from 100-125 4K students per year. We partner with SC First Steps within our district to service pre-K students. |
| Anderson School District 4 | This year we entered into a partnership with United Way called the Early Literacy Project. Parents and 4 year olds meet at their "home school" and complete literacy activities. The children receive a book and the parents receive tips to help their children. They meet 4 times a year. The students who were invited to participate are those who did not get into our 4k program. We offer SC's BabyNet services, which is an early intervention system for infants and toddlers under three years of age with developmental delays, or who have conditions associated with developmental delays. BabyNet matches the special needs of infants and toddlers who have developmental delays with the professional resources available within the community. Services are provided in everyday routines, activities and places relevant to the life of the family. BabyNet is funded and regulated through the Individuals with Disabilities Education Act, and managed through South Carolina Department of Health and Human Services. We also have a preschool with disabilities full-day program for 3-4-year-olds. 4K programs are offered at all elementary schools |
| Anderson School District 5 | We have continued to increase our 4K classrooms. We have two separate early childhood centers for 3K and 4K. They are South Fant School of Early Education and West Market School of Early Education. Also, three of our elementary schools are equipped with 3K and 4K. They are New Prospect Elementary, North Pointe Elementary and Whitehall Elementary. |
| Bamberg School District 1 | Currently the need for increasing pre-K services does not exist |
| Barnwell School District 19 | The district has ample room at the elementary school to address the needs of prekindergarten services. The school currently houses Head Start and 1 CRDEP class. |
| Barnwell School District 29 Williston | Tried to get additional class, however we do not have a waiting list to warrant this. |
| Barnwell School District 45 | In 2016, our district expanded to two full-day 4K CERDEP programs (CDEP at the time). The district also has two full-day 3-5 year old Montessori programs. We are currently recruiting for a waiting list to add an additional CERDEP funded 4K classroom. |
| Beaufort County School District | Beaufort County School District (BCSD) is continuing to monitor to growing need for Pre-Kindergarten. At this time, BCSD does not have a waiting list for Pre-Kindergarten. Facility space continues to be one of our biggest obstacles. |

| What is the name of your district? | Please explain how you have addressed the increasing need for pre-K services: |
|-------------------------------------|---|
| Berkeley County School District | In Berkeley County School District, we offer Pre-K services through a variety of models and schools. The SC child Early Reading Development & Education Program (CEREDP) is a four-year old income eligibility program to promote school readiness. From 2017-2018 we had 983, 2018-2019 we had 959 and for 2019-2020 we currently have 849 students. Head Start is a three and four old federal grant income eligible program to promote school readiness. From 2017 to present we have 617 students. Our students with special needs are served through a continuum of services for special education and related services. We have served 421 students during 2017-2018, 467 students 2018-2019 and currently at 510 students during the current school year. First Steps Parents as Teachers is our program offering birth to five-year old home visitation services to promote transition to formal school and parent practices. During 2017-2018, they served 82 families and 98 children, 2018-2019 served 89 families and 105 children, and currently for 2019-2020 they have 55 families and 64 children. We continue to work with school teams on early intervention and child find clinics are held monthly at each elementary school. All of our programs work together with comprehensive framework. |
| Calhoun County Schools | We currently offer a total of 4 traditional 4k classrooms in our district. We also offer 2 Montessori classrooms that serve 4k and 3k students. |
| Charleston County School District | Charleston County School District constructs 2 pre-K classrooms for each new school with the collections from the Education Capital Improvement Sales and Use Tax. |
| Charter Institute at Erskine | N/A |
| Cherokee County School District | There is an area for parenting and 3K students at our new elementary school - BD Lee. Currently we have 56 students enrolled in the program. |
| Chester County School District | We currently have 10 CERDEP- Pre K classes in the district. We currently establish a waiting list in the case that students are qualified and we can accept them after the classes fill. In our area, we also work with Headstart Pre K programs. We also have a Child Find Program. This program identifies young children for school readiness. This year we have started a Pre K program with Waterford that gives a tablet to pre k students to encourage early literacy learning with parental involvement. We also have started the Seedlings program in our district. Our district is always looking for way to address the needs of our pre K students and families. |
| Chesterfield County School District | Through past efforts we have addressed all classroom needs for pre-K. |
| Clarendon School District 1 | This area will be addressed through the renovations of existing classroom spaces. These spaces will meet compliance standards for the developmental stages of the target population of students. Special accommodations for students with special needs will be provided. |
| Clarendon School District 2 | Clarendon School District Two currently has an Early Childhood Center and Operates CERDEP Programming. The main thing lacking in the facility is a multi-purpose area to the building. This has been listed in this survey as an "Additions" at a rough draft cost of \$1,000,000. At Manning Primary School, we need to add a multi-purpose area to the building. This has been listed in this survey as an "Additions" at a rough draft cost of \$1,000,000. Additionally, we have in our plan \$5,000,000 to add an additional wing to our Junior High School to incorporate the 6th Grade from our Elementary School to the Junior High. This would add approximately 10 Classrooms and 2 Lab areas. This has been listed in this survey as an additional "Additions."***** Survey Feedback: This web form does not allow for reviewing back through before submitting. Also, even though it does allow for saving during "Resume later" there is no prompt on this end to be able to save it...thus the additional comments were added here in this section which did not pertain to CERDEP/Pre-K Services. |

| What is the name of your district? | Please explain how you have addressed the increasing need for pre-K services: |
|------------------------------------|--|
| Clarendon School District 3 | At this time, pre-K services are provided in conjunction with our Special Education Services. To date, facility issues has not been an issue regarding pre-K services. The district would like to add a 3K classroom, but has not set a date for implementation. Adding a 3K room will most likely cause an older grade level to move to a portable unit. |
| Colleton County School District | We have been able to address the needs of Pre-K services by using our existing available space. |
| Darlington County Schools | We have adding an additional class based upon increasing numbers. |
| Dillon 3 | We built a new elementary school that is 100 percent Montessori in programming. In this school, we serve all 4 and 5 year olds in our community with full day service. |
| Dillon 4 | Lack of facilities. We serve about 40% of the students we could serve If we could we would have 6 more classes. |
| Dorchester School District 2 | Opened additional schools from 2012 referendum. |
| Dorchester School District 4 | Relocation of services in school buildings. |
| Edgefield County | We have been dependent upon CERDEP Funding. We had classroom space available when funding for teachers became available. |
| Fairfield | We have relied upon state and local funds for pre-K services. We have not had a need to address significant facilities needs related to pre-K services other than playground equipment upgrades. |
| Florence County School District 1 | We have one of the largest preschool programs in the State of South Carolina. We currently serve over 500 3 & 4 year olds. |
| Florence County School District 2 | We have relocated all PK classes to the elementary/middle school. Our PK and 5K are now Montessori classrooms. |
| Florence County School District 3 | The District has met the increasing need for pre-K services by a adding third 4K class at Lake City Early Childhood Center of the Arts and by implementing a Montessori program at JC Lynch Elementary School to serve the needs of 3 & 4 Yr. Olds. The Montessori program increased the number of pre-K classes at this school from 1 to a total of 5 classes. All pre-K classes are currently at capacity in each school with a total of 164 students being served district wide. (3K - 24 students & 4K - 140 students). The District currently has a total of 10 pre-K classes; increasing from 7 classes for the 2018-19 school year. |
| Florence County School District 4 | We have developed a partnership with our local Head Start Program that included the use of two classrooms for a 0-3 year old program. |
| Florence County School District 5 | Currently we are serving all 4-k students who qualify for the program. |

| What is the name of your district? | Please explain how you have addressed the increasing need for pre-K services: |
|------------------------------------|--|
| Georgetown County School District | The Georgetown County School District, in collaboration with early childcare providers, eagerly awaits the upcoming 2020 census. This data, along with the data from surveys and community meetings, will provide us with much needed information that will indicate where we can anticipate growth. It will also help us to continue to build and sustain reputable programs and services that will afford young children and their families with opportunities to prepare them for successful outcomes in all aspects of their lives. We believe that our accomplishments (ranking 2nd and 3rd consecutively) over the past two years on the Kindergarten Readiness Assessment (KRA) is a direct result of the collaborative efforts between the GCSD and our community partners. |
| Greenville County Schools | Greenville County Schools (GCS) is committed to providing pre-k services to the extent possible. GCS currently has 81 regular student 4-year old classes and 29 preschool special education specialized classes serving about 1,925 students among the two groups. GCS greatly exceeds the state requirements in this area. Previously, the administration recommended and GCS' Board of Trustees approved that moving forward, during elementary space additions at any of GCS's elementary schools, to include appropriate additional space for pre-k classes as long as the school site is sufficient. Additionally all new elementary school facilities are designed and constructed with an early childhood pre-school classroom space component. Funding for early childhood pre-k classroom teacher and aides to increase the number of pre-k classrooms and, thus, students being served, may be limiting to GCS's long-term goals in this area. |
| Greenwood District 50 | Looking at Utilizing available space in our early childhood center for more classes. Better partnership with Gleams Head Start. |
| Greenwood District 51 | We are able to accommodate all existing needs with current space. |
| Greenwood District 52 | We are monitoring our existing Pre-K facilities to confirm compliance with CERDEP guidelines. In addition, we are monitoring our community population and private daycare facilities to determine if there will be an increase in the numbers of students needing services at the public school level. |
| Hampton District 1 | We currently serve over 122 students at 4 schools. |
| Hampton District 2 | District in consolidating in 2021. |
| Horry County Schools | Additional Pre-K classrooms have been added to new school designs and major renovations. |
| Jasper County School District | Jasper County School District Addresses the Increasing the Need for Pre-K Services by: A. Providing Parent engagement activities – Including hosting parent nights at schools, churches and civic oriented venues for parents of elementary and birth to three year-olds. B. Posting flyers and event notices in local businesses, libraries, churches and community rooms. C. Sending parent messages through telephone via our school District's message board. D. Distributing flyers through school age students to take home to parents. E. Partnering with Pre-K agencies such as Head Start and First Steps. F. Hosting Head Start classrooms within our two elementary schools. G. Hosting Title I parenting and skill sessions for parents of preschool students. |
| Kershaw County School District | We have gone full day at all elementary schools and kept 4-k classes at old Wateree Elementary, which allowed us to add 6 4-k classes in our growing West Wateree area. |
| Lancaster County School District | |
| Laurens County School District 55 | We continue to maintain facilities through use of 8% funding. |
| Laurens County School District 56 | We have added 1 pre-k class for the 2019-2020 year. |

| What is the name of your district? | Please explain how you have addressed the increasing need for pre-K services: |
|------------------------------------|---|
| Lee County Schools | Currently, we have enough teacher locations for additional pre-k services; however, some renovations may be needed to address DHEC specifications and or requirements. |
| Lexington County School District 1 | We have worked hard to identify spaces in our buildings to serve the growing population of pre-K services. We offer 1/2 day and full day programs to allow for higher enrollments. These programs are placed in areas where our pre-K enrollments are higher. We also plan to develop pre-K Centers in several areas within our district to allow for more accessibility to these programs. |
| Lexington County School District 2 | We are just finishing up our \$225 million bond referendum. Consequently, in most cases, we built in one additional classroom per grade level for any future growth. We also added some pre-K programs at schools that did not previously have space for such programs. If these programs grow beyond that, we would likely need to use portable learning cottages even though space around our current school sites would be limited due to required fire lane improvements in the current code that did not previously exist when we originally built or bought property. To address this issue, our district board plans to keep some of the property at abandoned school sites that were consolidated into larger facilities given the fact that very few properties exist in our school district that are large enough to build schools. |
| Lexington County School District 3 | Lexington School District Three offers 4-year old kindergarten classes. Lexington Three (Batesburg-Leesville Primary School) offers -4 classes of 4 year old regular kindergarten, -5 Montessori kindergarten classes with 4 year old students in them. -Boost Program for 2 and 3 year olds and their parents 2 days a week. Our pre-k program is at maximum capacity because of the availability of classroom space. Our Classroom space must meet the requirements for CERDEP as outlined by the South Carolina Department of Education. |
| Lexington County School District 4 | Our district provides an early childhood center with approximately 400 3k and 4k students. The 3k and 4k programs are full-day programs. |
| Lexington Richland 5 | New Elementary School under construction. |
| Marion County Schools | Four years ago the district started a program that houses all pre-k students in one facility. At the onset of the program 80 students were enrolled, presently there are over 200 students enrolled. There is currently more room to expand as well. |
| Marlboro County School District | Do not anticipate any increase in need for pre-K services |
| McCormick County School District | The district added an additional pre K class for the 2019-2020 school year. |
| Newberry County | We primarily use Title I and CERDEP funds. The general fund is also used to support the needs of the pre-K program. |
| Oconee County | 4K classes added with CERDEP Funds 4K classes went from 11 (Districtwide) to 18 Three PIP classes added Always looking for ways to better serve pre K |
| Orangeburg County School | The district identifies Pre-K space in existing facilities and uses in-house maintenance staff to renovate to meet DSS, DHEC, and Fire Code regulations to provide a safe environment for teachers and students. |

| What is the name of your district? | Please explain how you have addressed the increasing need for pre-K services: |
|--|---|
| Pickens County | The district has added pre-k classrooms and staff using local funding in some schools. Our plan is to add more classrooms and staff in schools that have suitable space. However, all schools will not have programs due to limited suitable funding and space. |
| Richland County School District 1 | We have been able to absorb most of our needs within our existing buildings. |
| Richland County School District 2 | The district continues to update our facility plan by renovating existing spaces in current schools through adding restrooms, etc. This also lowers our current school capacities that increase the need for new elementary schools sooner but not currently in the next 5 years. |
| Saluda County School District | Question 60 - Due to limited funding we are only able to serve pre-k students based on our CDEPP funding. If additional funding were available and we had funding for additional classrooms Saluda County Schools would be interested in 4-k classes for all students. |
| SCDJJ | N/A |
| SC Governor's School for the Arts and Humanities | Not applicable |
| SC Public Charter Schools District | Charter schools determine build out of grades based upon their charters, needs assessments and community support demand during the charter application based upon their school model. Pre-K services may be added dependent on local tradition school programs or if there is a need for feeding into the charter school that correlates with the school's model and curriculum. |
| Spartanburg School District 1 | The district has 1/2 day 4K programs in all of our elementary schools. We have two schools that have 1/2 day 3K programs. We would have the space for full day 4K programs in all of our elementary schools. |
| Spartanburg School District 2 | Our district recently added full day Kindergarten at our elementary schools. We also still have half-day programs, however the goal is to move towards increasing full day programs. |
| Spartanburg School District 3 | State funds continue to assist us in funding six classes of pre-K services. We augmented these funds with General Fund and with Title I funds since all of our elementary schools are Title I eligible. With our negative growth, we could likely grow into universal pre-K4 as a phased in service but would need additional funding from the state to pay salaries of teachers and instructional paraprofessionals. |
| Spartanburg School District 4 | We already have universal 4K and selected 3K. We don't anticipate any new cost. |
| Spartanburg School District 5 | Spartanburg District Five currently has 6 elementary schools consisting of grades 4K-4th grade. Two of these schools are designated Title I schools. One Title I school has 3 full day 4K classes and the other Title I school has 2 full-day 4K programs. Each of the four non-Title I schools have 2 half-day programs serving 40 students requiring only 1 classrooms. Our district has increased 1000 students in the last three years. As we are planning future building programs, we are seeking space and funding to increase the number of full-day 4K programs in all of our elementary schools. In addition, each of our elementary also has one pre-school child development classes serving 3 and 4 year-old special education students. |
| Spartanburg School District 6 | The school district has an aging facility used for pre K services. The original building was constructed in 1954. The estimated cost of renovation is \$17 million which is currently not included in the plan for the capital needs report. |

| What is the name of your district? | Please explain how you have addressed the increasing need for pre-K services: |
|-------------------------------------|---|
| Spartanburg School District 7 | Due to the consolidation of a couple of our schools, we were able to convert one elementary school to an Early Learning Center that house our 4K and 3K special needs. We have also incorporated 4k in to many of our other elementary schools. Additionally, we have one school that is a school within a school that houses our Montessori school and serves students as young as 3 years old. |
| Sumter School District | At this time, there is no increasing need for pre-K services in the near future. |
| Union County School District | Due to consistent annual decline in population and enrollment, over the past 20-25 years, the demand for pre-K services has not exceeded our current capacity. We have not had to expand any services currently offered via 4K classes and pre-K disability classes at our elementary schools. |
| Williamsburg County School District | In order to address the increasing need for pre-K services, playground equipment and furniture has been relocated and placed at schools in need of those items for the pre-K program. Special focus is being directed to the Primary School that is in the process of opening another 4K classroom due to the increasing number 4K students on a waiting list. Facilities housing pre-K students has been given immediate attention to any maintenance request for repair or upgrade in order to maintain facility compliances. |
| York 1 York | The District has 9 CDEPP classrooms in the district and open to expansion if needed. |
| York 2 Clover | We presently serve 300 pre-K students in a full day program and 10 pre-K students in a half-day Montessori program. There are 53 students on a waiting list for pre-K services. |
| York 3 Rock Hill | Consideration in planning for expanding our central child development center into a vacated elementary school with 3.5 times more capacity. |
| York 4 Fort Mill | We added a few additional pre-k classes based on our limited funding. |
