

# School Safety- Facility and Infrastructure Upgrades

## Overview

The SC General Assembly has made available up to \$15 Million of lottery funds to fund life safety infrastructure for school facilities projects as provided in Proviso 1.98(B) of the FY 18-19 Appropriation Act (<https://goo.gl/TW3ztg>).

Eligible school facility projects include, but are not necessarily limited to, items such as:

- (a) door locks;
- (b) security cameras;
- (c) metal detectors;
- (d) lifesaving medical equipment;
- (e) equipment related to school resource officers, excluding vehicles.

School facilities do not include unimproved real property, centralized district administration facilities or other facilities, including those normally identified with interscholastic sports activities.

The SC Department of Education (SCDE) has established several application due dates as indicated below. Districts can choose their due date.

- September 21, 2018
- October 26, 2018
- November 21, 2018

All applications must be submitted by November 21, 2018. Funding requests will be considered at the next scheduled meeting of the State Board of Education (SBE) after each application due date.

The SCDE is requesting that districts identify their top three projects from the categories noted in this application. Only three projects should be identified.

SCDE will give priority consideration to:

- (a) projects that "harden" school facilities, to include keyless entry systems, external doors, external door locks, interior doors, and interior door locks that are compliant with classroom security/intruder function that includes key operation on both the classroom and corridor side to allow the teacher to engage the lock without opening the door;
- (b) projects that provide first responders and law enforcement emergency responder radio coverage in accordance with local requirements;
- (c) district facilities assessments and other resources to identify projects of greatest need.

The SCDE will review applications as received, prioritize eligible projects with the greatest need, and submit recommended projects to the SBE for final approval. Initial placement of projects on the priority list for funding may be subject to change as applications/projects are submitted that convey greater urgency or need.

Funds will be distributed, based on the prioritized, approved listing, as lottery funds are made available. There is no guarantee approved projects will be funded. Projects are only funded if lottery funds materialize.

Should you have technical questions regarding projects, contact Jenny Rooney, Office of School Facilities at [jrooney@ed.sc.gov](mailto:jrooney@ed.sc.gov) or 803-734-2500. For assistance with accessing the application, contact Wanda Pontoo, Administrative Coordinator, Division of District Operations and Support, at [wpontoo@ed.sc.gov](mailto:wpontoo@ed.sc.gov) or 803-734-8371.

**9. Does your district have a recent Facilities Assessment? (if you answer "yes" and your district did not receive Abbeville Capital Improvement Funds, please email the district Facilities Assessment or web link to [wpontoo@ed.sc.gov](mailto:wpontoo@ed.sc.gov)) \***

*Mark only one oval.*

- ☐ Yes
- ☐ No

## Project Funding Priority Request

Please identify your district's top three funding requests based on the eligible categories for funding. Should none apply, use the "Other" category to establish your priorities. Each category requires a response; so, if there is a category for which you do not want to assign a priority, select "Not Applicable".

**10. Project Type \****Mark only one oval per row.*

	1st Priority	2nd Priority	3rd Priority	Not Applicable
