# Indicator 8 Survey

- The Indicator 8 parent survey postcards are being mailed out. You may get a call from a parent concerning the survey. This year we included a Spanish link so hopefully that will cut down on translation request calls. The link to the survey if needed is listed on the post card :
- Parents are asked to complete the survey by visiting the website below or by scanning the QR Code on their post card.

# Indicator 14

## Instructions:

1. Complete the logistics on the form. (Name, DOB, High School, county, exceptionality, exit reason) (This information we already have so it does not have to be asked, the district can gather that information for your files if you would like to)
2. Identify who is completing the form. (This would correspond to the question “Who is completing survey?” You would select “District”)
3. Add the Survey ID (This information would have been keyed at that start of the survey along with selecting the district name)
4. Identify who is responding to the interview questions. (This question will be answered after the district representative selects the “Exclusions for District/Vendor”)

# LMS courses projected for August

- Initial courses will support tier two and tier three areas and we will grow towards more universal support areas.
- These will be self-paced, non-facilitated courses, aimed at providing effective training and PD that is flexible and convenient.
