

Did you previously participate in Teacher as Researcher?
Want access to a new and powerful data analysis tool
to make your Instructional Improvement Cycles a breeze?

TEACHER **as** RESEARCHER

Free 90-Minute Virtual Refresher

+ New data analysis tool

If you have previously participated in Teacher as Researcher, the South Carolina Department of Education is offering you a FREE refresher course to introduce the new **Strategy Workshop tool** and prepare you to conduct new Instructional Improvement Cycles in the coming school year!

The recently launched tool, developed by Education Analytics, automates the research design and analysis process and includes a searchable repository of evidence-based instructional strategies for use in your classroom.

Why take the Refresher?

- Renew your understanding of how to design and implement Instructional Improvement Cycles, improving your ability to evaluate evidence-based strategies for your classroom.
- Gain access to the powerful Strategy Workshop tool that automatically analyzes data so you don't have to.
- Deepen your connection with the statewide community of South Carolina Teacher Researchers.
- Earn one free CEU for completing the course.
- Learn how you may be able to use your classroom-based research to meet SLO and/or TLG requirements (dependent on individual district approval).

Pick from two options
