

**South Carolina Educator Preparation Guidelines: Standards, Policies, and Procedures**  
*Annual Reporting Requirements*

Educator preparation providers are required to submit annual reports to the South Carolina Department of Education (SCDE). To prevent unnecessary duplication, the state will accept copies of annual reports submitted to national organizations for state purposes. The SCDE requires three annual reports, all of which are due on April 30 of each year:

- the Title II Report, as required by the Higher Education Opportunity Act,
- the State Requirement Annual Assurance Report, and
- the CAEP Annual Report for providers that seek national accreditation or the SCDE Provider Annual Report for providers that seek state accreditation.
