

MEMORANDUM

TO: School District Transportation Directors & Financial Offices

FROM: Mike Bullman
Director, Office of Transportation

DATE: February 6, 2025

RE: Hazardous & Other District Funded Fees for School Years 2024/2026

I am writing to inform you of important changes regarding hazardous and other district funded transportation fees for the upcoming school years. After much consideration and review, it has been decided there will be no hazardous or other district funded transportation fees collected for the current, 2024/2025 school year.

School Year: 2025/2026

Hazardous and other district funded transportation fees will resume for the 2025/2026 school year. In preparation for this reinstatement, please:

- Review your current and future hazardous/other district funded charges listed in the Student Transportation application
- Evaluate and adjust routes that could safely and reasonably eliminate hazardous or other state funded conditions
- Budget accordingly for listed charges that will remain in effect

In addition, I encourage you to maintain frequent communication with your assigned county supervisor(s) regarding all routing concerns, questions about hazardous or other district funded conditions/routes, and proposed route modifications.

Early planning and ongoing communication will help ensure no surprises and a smooth transition when hazardous transportation or other district funded fees resume in 2025/2026.

As always, please let me know if you have any questions.

Mike
