Expenditure of Lottery Funds

PROCEDURE

Applicability:

This procedure relates to all lottery funds expended internally by the South Carolina Department of Education (SCDE), by South Carolina school districts, and by other entities.

Responsibilities:

For lottery funds expended internally by SCDE, the Office of Auditing Services (OAS) shall annually review the expenditure of lottery funds to ensure compliance and allowability of costs. This review will ensure the funds are expended in accordance with applicable state laws, rules, and regulations for the prior fiscal year to include South Carolina travel regulations and the S.C. Consolidated Procurement Code.

For lottery funds allocated to South Carolina school districts, the OAS will annually review the expenditure of lottery funds to ensure compliance and allowability of costs. The OAS will have guidance in the Annual Audit Guide for independent auditors concerning review of lottery funds. School districts provide detailed expenditures as a part of their audit submission due to the agency by December 1st annually. From this submission and the agency's standard risk assessment, a sample of districts may be requested to submit documentation to support expenditures incurred to ensure compliance with applicable state laws, rules, and regulations.

For lottery funds allocated to other entities, the OAS will annually review the expenditure of lottery funds to ensure compliance and allowability of costs. OAS will annually request the entities to provide reports on how lottery funds were expended. Entities may be requested to submit documentation to support expenditures incurred to ensure compliance with applicable state laws, rules, and regulations, including Proviso 117.21 if applicable.
