Grand Total	\$50,000.00	

Please explain how these funds will be used to provide a public benefit:

Our Teacher Innovation Grants help to enhance student learning and interest in learning by providing teachers an opportunity to exercise their passion for teaching, develop their ideas, partner with colleagues and connect with the wealth of knowledge, expertise and talent within their school, district, and community. Our Service-Learning Grants provide teachers with opportunity to connect classroom curriculum with service projects that engage students socially, civically, and academically. A high-quality service-learning experience combines meaningful service with in-depth learning. Service-learning begins with classroom content and moves into the community through the planning and implementation of a service-project. Many of these projects and initiatives involve students in sharing what they've learned, created, or accomplished in the community with parents and other county residents. These events help bring a positive light to teacher, students, and our schools in general as community stakeholders see for themselves the fruit of educational labor being done in our county.
