

Grants Accounting Amendment Workflow

Amendments

Log into GAPS as the Coordinator Role
Select the Sub Grant, Entity and Sub Program
From the Finance Tab; Select Amendments

Amendment options available to enter are One to One, One to Many and Many to One

Note: Previously entered amendments will display in the listing. Depending on the Amendments status Delete or Edit is available. Delete is only available if the amendment is in its initial pre-submittal stage. Once it's been submitted/returned and reset to pre-submittal you can no longer delete the amendment. It is part of the Grants History. To eliminate the amendment after its submitted, it would need to be Denied.

This option is used to move Funds from a single Budget Item to Many Budget Items

The From section is just like the One to One and is populated with all previously entered Budget items.

The To section has a table that allows you to add multiple items and dollar amounts to multiple Budget Areas. There is an Edit check that you can't exceed the amount available in the From Budget location. Select the Function and Object codes, enter the amount. Click the Add New button. NOTE: do NOT select CREATE until you have entered all items for this group. Once an item is Added to the table, you can use the Replace button to make changes to the data you entered for THAT item. If no changes are needed, simply continue adding additional items for this group. To get the Add new Button back after adding an item simply select/enter the next budget item and Replace will change to Add New. Continue this process until all items have been entered. Once all items have been entered Click Create to save this GROUP of amendments. The Amendment listing page will display. NOTE If you have entered any amendments and then change the 'From' information, The 'From' info will be changed for all amendments previously entered in this amendment group.
