

**REVENUE 3526**

**REFURBISHMENT OF SCIENCE KITS**

**SUBFUND 326**

**EIA FUND**

### **Allocation Formula**

Available funds for the newly adopted science kits will be a base \$10,000 allocation and any remaining funds will be allocated based on prior year 135-Day ADM.

### **Legal Reference**

General Appropriations Act for 2025-26, Proviso 1A.48

### **Guidelines**

Funds appropriated for the purchase of instructional materials (print/digital) may be used for reimbursing school districts to offset the costs of refurbishing science kits on the state-adopted instructional materials inventory, purchasing new kits or those adopted as supplemental from the Central Depository, or a combination of refurbishment and purchase. The refurbishing cost of kits may not exceed the cost of the adopted refurbishing kits plus a reasonable amount for shipping and handling. Costs for staff development, personnel costs, equipment, or other costs associated with refurbishing kits on state inventory are not allowable costs.

- Districts cannot order adopted refurbishment kits and order consumable items unless the consumable items are not available in the refurbishment kit (e.g., batteries, plastic spoons, paper cups).
- Districts may order non-consumable items that need replacing due to loss or damage but not for additional items that increase functionality beyond that of state-adopted or supplemental-adopted kits.
- Districts must keep copies of inventory records, bids, invoices, and other documentation related to the purchase and refurbishment of kits to provide an audit trail.
- Districts must comply with state procurement regulations and follow cost-effective refurbishment practices.
- Some kits do not meet any state grade-level-specific science standards. The cost of refurbishment of these kits is not an allowable expenditure.
- Schools may purchase new kits to replace kits that no longer meet grade-level-specific science standards or where the refurbishment cost is greater than the replacement cost.

### **Allowed Expenditures**

- Funds may be used for the purchase of materials, supplies, and freight and for travel costs associated with the delivery of kits at the state reimbursement rate for mileage.
- Pursuant to Proviso 1A.48, these funds may be carried forward from the prior fiscal year into the current fiscal year to be expended for the same purposes.
- These funds are not subject to flexibility.
