Month	Title	Audience	Description	Youtube Link
May	Implementing HQIM: Purpose, Principles, and Practical Application	Teachers, Instructional Coaches and Administrators	Participants will explore the purpose and core principles of High-Quality Instructional Materials (HQIM), examine what effective implementation looks like in practice, and engage in the process of lesson and unit internalization to strengthen instructional planning and delivery.	Recording
June	Checking for Understanding in Real Time	Teachers, Instructional Coaches and Administrators	This webinar equips participants with practical, real-time strategies for checking for understanding within HQIM to identify student needs and make responsive instructional decisions in ELA and mathematics across any adopted curriculum.	Recording
July	Scaffolding Without Reducing Rigor	Teachers, Instructional Coaches and Administrators	This session explores how to scaffold instruction in ways that support all learners while maintaining the rigor and intent of HQIM. Participants will learn practical strategies to break down complex tasks, build student independence, and preserve strong academic expectations.	Recording
