Ryan Brown
Rebecca Davis
Crystal Dennis
Stephanie DiStasio
Elizabeth Ann Jones
Angel Malone
David Mathis

Bradley Mitchell
Quincie Moore
John Payne
Brian J. Pratt
Anne Pressley
Laurie Traywick

Minutes

Agenda: Fall 2020 Recommendations

The Instructional Subcommittee continued to review, discuss, and make recommendations to the fall recommendations working document.

Step 4: Structuring and Scheduling Learning

Ensuring a Well-Rounded Education

- The Arts (visually performing, performing arts),
- Physical Education (including ROTC), and
- Media Centers and Media Specialist
 - Make a strong statement of support.
 - Ask professional organizations to give us their thoughts on what it should look like in their areas for the subcommittee to use as appendices.
 - Discuss the recommendations, the need to evaluate existing resources in arts and PE, potentially use CARES funding to provide the equipment necessary to meet health guidelines/requirements (CTE, high school science labs, etc.).
 - Encourage the professionals to plan for how to execute via eLearning.

Districts should enter the new school year with a clear communication strategy to implement in the event of a return to full distance learning due to a resurgence of COVID-19.

- Career and Technology Education (CTE)
 - Recommendation for a hybrid plan in the event of resurgence so that districts/ CTE centers have an opportunity to give students the hands-on skills they need.
 - Need for Department of Health and Environmental Control (DHEC) guidance for students in courses that need guidelines to be prepared on day one to walk into a facility. The DHEC guidelines should rest in the Safety area, but be referenced in Instruction.
 - Recommendations on how to use CARES funds for CTE, encourage districts to consider needs.

Ms. Malone will meet with CTE directors to flesh out guidance/recommendations for various courses (appendix from Construction Trades, Engineering, and Architecture (CTEA)).

- Special Education
 - Individualized Education Program (IEP) teams will need to answer:
 - What are the needs of a student that resulted from the closure vs. what are the needs that resulted from the disability? Districts determine how programs are administered.
 - What is the student going to need in order to work on his/her IEP goals? Intensifying the services already in place? Adding additional services?
 - Parents and IEP teams need to consider compensatory services for those students with the most pronounced needs that cannot be delivered via distance learning (medical homebound, etc.).
 - CARES funding could be used for salaries.
 - Recommend districts have clear plans for students with IEPs.

Ms. Davis will provide guidance.

- English Learners
 - Encourage hiring additional staff, increase individualize instruction, as available
 - Need for additional resources of translators, software, etc. for family engagement (look at NIET recommendations).

Ms. Duggins will research for guidance the ratio, etc.

- Teacher Evaluations
 - Fold in resurgence recommendations. SCDE to be ready to address extensions to teachers, extending 4.0 timelines for administrators, etc.
- Field Studies (groups of students)
 - Refer to recommendations of Safety to establish what the criteria for what “safe” is. Check with Operations Subcommittee to see what they have come up with.
 - Leave to districts due to liability, locations, buses, social distancing, community support, etc. putting safety of students and staff first.
 - Recommend districts have a plan for how to address field studies in the event of resurgence of COVID-19. Put this into the contingency section.
- Emergency Drills
 - Ask for Safety/Operations to ask DHEC for guidelines.

- Class Size Caps
 - Safety and Operations Subcommittees will take the lead from DHEC guidelines.
- Recommendations for what schools should do if someone in building is found to have COVID-19
 - Districts, with guidance from DHEC, must engage in clear and consistent communications about processes/procedures in the event of COVID in the building.
- Recommendations for what districts should do in the event staff is unable to report due to COVID-19
 - Recommend that districts have a plan for what to do in the event of a substitution shortage in a building within the requirements of existing health/safety requirements.
- Substitutes
 - Recommend that districts have a plan for what to do in the event that a teacher is ill for a sustained period during distance eLearning.

Next Steps

- Full Task Force Meeting – Thursday, June 11, 2020 at 10 a.m.
- Next Subcommittee Meeting – TBD

Instructional Subcommittee is asked to refer to the draft recommendations working document to make any revisions, comments/suggestions, or add questions within the Draft Recommendations Google form.
