RE: 2022–23 Multi-Tiered System of Supports (MTSS) Required Reporting

On May 18, 2018, Governor Henry McMaster signed into law Act 213, which directed districts to begin implementation of MTSS during the 2019–20 school year. Act 213 requires all districts and charter schools to report data on the implementation of MTSS and literacy universal screening procedures. **These district reports are due to the SCDE by June 30, 2023.**

The reporting requirement consists of two components:

1. A Formstack survey for district-level data; and
2. A single PowerSchool field for student-level data.

Some of the required survey data has been streamlined this year; before completing the survey, please review this year's [MTSS Data Reporting Guide](#) in full, which gives a comprehensive overview of the required data.

The Formstack survey includes district-level questions about the universal screening tool(s) used and overall results, district MTSS process, and professional development (PD) information. [The Formstack survey may be found here.](#)

The Universal Screening PowerSchool field may be found on the SC Student Information Page and should be completed for all kindergarten and first grade students. More information on how to complete the PowerSchool field may be found in the MTSS Reporting Guide linked above, as well as the [PowerSchool data entry manual](#).

If you have additional questions about the reporting requirements, please contact Abbey Duggins at asduggins@ed.sc.gov.
