

SAFARI Montage LOR Needs Assessment

South Carolina Department of Education

Thank you for choosing SAFARI Montage!

We are looking forward to working with you to support your SAFARI Montage Learning Object Repository (LOR) implementation. This assessment will gather technical, curriculum, and instruction needs information that will help us provide the best possible rollout for your implementation. Before you begin, please take a moment to review the following two informational documents:

[SAFARI Montage Cloud Technical Overview](#)

[SAFARI Montage LOR Considerations for Implementation](#)

Please discuss the questions below with your district staff responsible for IT, curriculum, and instruction administration. These answers should be gathered collaboratively, to ensure that all stakeholders in your digital learning ecosystem are aligned in district goals. Once you have these answers, submit them online through our [SAFARI Montage LOR Technical, Curriculum, and Instruction Needs Assessment](#) form.

User Provisioning

How will you be provisioning users to the SAFARI Montage system? Note that in cases where integrating with on-premise Active Directory or other LDAP-compliant system, appropriate access must be provided. In the case of LDAP-compliant integrations, LDAPS (port 636) access must be allowed and can be accomplished by whitelisting the SAFARI Montage IP address 52.191.81.81 to limit exposure.

User Authentication

Once user accounts have been provisioned, users will need to be authenticated on login. What method will you be using for authentication?

☐ LDAP ☐ Sign-In with Microsoft ☐ Google Sign-On ☐ SAML

☐ LTI (Please list, e.g. ClassLink, Clever, etc): _____

SAFARI Montage Chrome Browser Extension

The [SAFARI Montage Chrome Browser Extension](#) offers users a streamlined workflow for uploading web content into the SAFARI Montage LOR. Please take a moment to review the information and watch the video linked above, demonstrating the use of this powerful browser extension.

Are you interested in implementing the SAFARI Montage Chrome Browser Extension in your district? ☐ Yes ☐ No

SAFARI Montage and YouTube

The following questions regard your district's policy with regards to YouTube and content filtering. Before answering, please take the time to review [this document](#) on using the SAFARI Montage system to approve YouTube content.

Does the district currently use YouTube? ☐ Yes ☐ No

Does the district have any YouTube access restrictions in place? ☐ Yes ☐ No

If so, please describe them (Are they based on Google's YouTube access management features; a district content filtering, firewall, or proxy solution; explicit URL whitelist; or something else?)

Do restrictions vary for different users, e.g., do Teachers have fewer restrictions than students? ☐ Yes ☐ No

SAFARI Montage contains curated educational YouTube web links and can also ingest links to YouTube videos teachers find educationally valuable. Using the district's content filter, SAFARI Montage can be marked as a trusted source and allowed to serve these educationally valuable YouTube videos to students while the content filter prevents access to YouTube from outside SAFARI Montage. Would the district like to use SAFARI Montage as a trusted source for approved YouTube videos?

☐ Yes ☐ No
