

Together in Education

Introducing TeachSC

The South Carolina Department of Education has teamed up with teacher preparation programs and organizations to launch TeachSC—a new digital platform to recruit South Carolina teachers.

TEACH South Carolina (TeachSC) is a new statewide collaboration of K-12 schools, colleges, government, community organizations, and nonprofits with a mission to recruit the next generation of South Carolina teachers and help them through the process of getting certified.

There is no cost to participate in TeachSC. All South Carolina teaching programs and public schools are invited to join. See contact information below.

Tackle the Shortage—Make a Difference

Over the next three years, the state is investing significantly in teacher recruitment. This initiative is designed to:

- 1 Help increase enrollment across statewide teaching programs
- 2 Lower the percentage of open teaching vacancies in South Carolina
- 3 Increase diversity throughout the teaching workforce

Easy to Join

TeachSC will offer a centralized hub for prospective teachers to explore the profession and find support, all for free.

This includes:

-  Step-by-step guides that demystify the certification process
-  A searchable database of SC certification programs
-  1:1 advising to help candidates choose a path that works for them
-  Financial incentives, including scholarships and reimbursement for application fees
-  Email and text messages about important dates, deadlines, events and more
-  Articles and social media content to inspire and build community
