

**Task Title:** Basic Operations**Grade Band:** Math/Elementary

Item	Standard	Extended Standard	Indicator
1	<b>3-2</b> - The student will demonstrate through the mathematical processes an understanding of the representation of whole numbers and fractional parts; the addition and subtraction of whole numbers; accurate, efficient, and generalizable methods of multiplying whole numbers; and the relationships among multiplication, division, and related basic facts.	The student will demonstrate through the mathematical processes a sense of addition and subtraction and the representation of whole numbers.	<b>3-2.3</b> Apply an algorithm to add and subtract whole numbers fluently.
2	<b>3-2</b> - The student will demonstrate through the mathematical processes an understanding of the representation of whole numbers and fractional parts; the addition and subtraction of whole numbers; accurate, efficient, and generalizable methods of multiplying whole numbers; and the relationships among multiplication, division, and related basic facts.	The student will demonstrate through the mathematical processes a sense of addition and subtraction and the representation of whole numbers.	<b>3-2.3</b> Apply an algorithm to add and subtract whole numbers fluently.
3	<b>3-2</b> - The student will demonstrate through the mathematical processes an understanding of the representation of whole numbers and fractional parts; the addition and subtraction of whole numbers; accurate, efficient, and generalizable methods of multiplying whole numbers; and the relationships among multiplication, division, and related basic facts.	The student will demonstrate through the mathematical processes a sense of addition and subtraction and the representation of whole numbers.	<b>3-2.3</b> Apply an algorithm to add and subtract whole numbers fluently.
4	<b>3-2</b> - The student will demonstrate through the mathematical processes an understanding of the representation of whole numbers and fractional parts; the addition and subtraction of whole numbers; accurate, efficient, and generalizable methods of multiplying whole numbers; and the relationships among multiplication, division, and related basic facts.	The student will demonstrate through the mathematical processes a sense of addition and subtraction and the representation of whole numbers.	<b>3-2.3</b> Apply an algorithm to add and subtract whole numbers fluently.
5	<b>3-2</b> - The student will demonstrate through the mathematical processes an understanding of the representation of whole numbers and fractional parts; the addition and subtraction of whole numbers; accurate, efficient, and generalizable methods of multiplying whole numbers; and the relationships among multiplication, division, and related basic facts.	The student will demonstrate through the mathematical processes a sense of addition and subtraction and the representation of whole numbers.	<b>3-2.3</b> Apply an algorithm to add and subtract whole numbers fluently.
