

Information Technology Foundations Course Code 5270 STUDENT PROFILE

DIRECTIONS:

Evaluate the student using the applicable rating scales below and check the appropriate box to indicate the degree of competency. The ratings 3, 2, 1, and N are not intended to represent the traditional school grading system of A, B, C, and D. The description associated with each of the ratings focuses on the level of student performance or cognition for each of the competencies listed below.

PERFORMANCE RATING

- 3 - Skilled--can perform task independently with no supervision
 2 - Moderately skilled--can perform task completely with limited supervision
 1 - Limitedly skilled--requires instruction and close supervision
 N - No exposure--has no experience or knowledge of this task

COGNITIVE RATING

- 3 - Knowledgeable--can apply the concept to solve problems
 2 - Moderately knowledgeable--understands the concept
 1 - Limitedly knowledgeable--requires additional instruction
 N - No exposure--has not received instruction in this area

A. Safety and Ethics

- | | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--|
| 3 | 2 | 1 | N | |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 1. Identify major causes of work-related accidents in offices. |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 2. Describe the threats to a computer network, methods of avoiding attacks, and options in dealing with virus attacks. |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 3. Identify potential abuse and unethical uses of computers and networks. |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 4. Explain the consequences of illegal, social, and unethical uses of information technologies (e.g., piracy; illegal downloading; licensing infringement; and inappropriate uses of software, hardware, and mobile devices). |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 5. Differentiate between freeware, shareware, and public domain software copyrights. |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 6. Discuss computer crimes, terms of use, and legal issues such as copyright laws, fair use laws, and ethics pertaining to scanned and downloaded clip art images, photographs, documents, video, recorded sounds and music, trademarks, and other elements for use in Web publications. |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 7. Identify netiquette including the use of e-mail, social networking, blogs, texting, and chatting. |

- | | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 8. Describe ethical and legal practices in business professions such as safeguarding the confidentiality of business-related information. |
|--------------------------|--------------------------|--------------------------|--------------------------|---|

B. Employability Skills

- | | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--|
| 3 | 2 | 1 | N | |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 1. Identify positive work practices (e.g., appropriate dress code for the workplace, personal grooming, punctuality, time management, organization). |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 2. Demonstrate positive interpersonal skills (e.g., communication, respect, teamwork). |

C. Student Organizations

- | | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|---|
| 3 | 2 | 1 | N | |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 1. Explain how related student organizations are integral parts of career and technology education courses. |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 2. Explain the goals and objectives of related student organizations. |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 3. List opportunities available to students through participation in related student organization conferences/competitions, |

community service, philanthropy, and other activities.

- | | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 4. Explain how participation in career and technology education student organizations can promote lifelong responsibility for community service and professional development. |
|--------------------------|--------------------------|--------------------------|--------------------------|---|

D. Computing Fundamentals

- | | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--|
| 3 | 2 | 1 | N | |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 1. Computer Hardware: |
| | | | | a) Identify types of computers, how they process information and how individual computers interact with other computing systems and devices. |
| | | | | b) Identify the function of computer hardware components. |
| | | | | c) Identify the factors that go into an individual or organizational decision on how to purchase computer equipment. |
| | | | | d) Identify how to maintain computer equipment and solve common problems relating to computer hardware. |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | 2. Computer Software |

- a) Identify how software and hardware work together to perform computing tasks and how software is developed and upgraded.
- b) Identify different types of software, general concepts relating to software categories, and the tasks to which each type of software is most suited or not suited.
- c) Identify fundamental concepts relating to database applications.

3. Using an Operating System:

- a) Identify what an operating system is and how it works, and solve common problems related to operating systems.
- b) Manipulate and control the Windows desktop, files, and disks; identify how to change system settings, install and remove software.

E. Key Applications

3 2 1 N

1. Common Program Functions:

- a) Be able to start and exit a Windows application and utilize sources of online help.
- b) Identify common on-screen elements of Windows applications, change application settings and manage files within an application.
- c) Perform common editing and formatting functions.
- d) Perform common printing functions.

2. Word Processing Functions:

- a) Be able to format text and documents including the ability to use automatic formatting tools.

- b) Be able to insert, edit, and format tables in a document.

3. Spreadsheet Functions:

- a) Be able to modify worksheet data and structure and format data in a worksheet.
- b) Be able to sort data, manipulate data using formulas and functions and add and modify charts in a worksheet.

4. Presentation Software:

- a) Be able to create simple presentations.
- b) Be able to format simple presentations.

F. Living Online

3 2 1 N

1. Networks and the Internet:

- a) Identify network fundamentals and the benefits and risks of network computing.
- b) Identify the relationship between computer networks, other communications networks (like the telephone network) and the Internet.

2. Electronic Mail:

- a) Identify how electronic mail works.
- b) Identify how to use an electronic mail application.
- c) Identify the appropriate use of e-mail and e-mail related "netiquette".

3. Using the Internet:

- a) Identify how computers are used in different areas of work, school, and home.
- b) Identify the risks of using computer hardware and software.
- c) Identify how to use the Internet safely, legally, and responsibly.
