

South Carolina Department of Education – Office of Career and Technology Education
Guidelines For Career and Technology Education Work-Based Certification
Health Science Teacher Certification Guidelines

Appendix D addresses guidelines that are unique and essential for certification of Health Science teachers.

I. Requirements

In addition to meeting all requirements of Regulation R. 43-63 and Section III of the Guidelines For Career and Technology Education Work-Based Certification, supplemental requirements for certification of Health Science Technology Education teachers are provided below.

A. Competency Validation

Teacher candidates must:

1. **Document a minimum** of an associate degree related to science, healthcare, or health science from a regionally accredited institution of higher education or approved by the State Board of Education (the only exception would be a **registered** nurse (RN) that graduated with a diploma in nursing, which is the equivalent of an associate degree as far as hiring practices)
2. **Document and maintain a CTE approved active state or nationally recognized healthcare professions license, certificate, or registration.**
3. **Document and maintain state license, certificate, or registration if it is available or required to practice in SC.**
4. **Document minimum employment in a healthcare setting** as a licensed, certified, or registered healthcare professional as outlined in Appendix A.
 - a. Master's or Doctorate degree, teacher candidates, require six months of full-time healthcare work experience, while licensed as an approved healthcare provider, during the last five years.
 - b. Bachelor's +18 towards their master's degree, teacher candidates, require one or more years of full-time work experience, while licensed as an approved healthcare provider, during the last five years.
 - c. Bachelor's degree, teacher candidates, require two or more years of full-time healthcare work experience, while licensed as an approved healthcare provider, during the last five years.
 - d. Associate degree +30 in towards their bachelor's degree, teacher candidates, require three or more years of full-time work experience during the last five years.
 - e. Associate degree, teacher candidates, require four or more years of full-time healthcare work experience while licensed as an approved healthcare provider, during the last five years.
 - f. Recent work experiences will be an important deciding factor for eligibility approval.
 - g. The SCDE office of Teacher Certification in conjunction with the SCDE Office of Career and Technical Education work together to determine appropriate and approved work experiences.
5. **Possess and maintain a current BLS CPR certification.** BLS Instructor certification desired.

B. Basic Skills Validation

1. Teacher candidates must **take the WIN Learning Career Readiness Assessment** during the first year of induction certification. The candidate will have five years to successfully pass the examination. The measurement of basic skills may be attempted as many times as needed through the fifth year of teaching.
2. Teacher candidates that have **healthcare experiences with direct patient care are the most desired.**

Approved Medical Professional	Certification/Licensure/Registration Organizations	Required And Approved Certification Acronym	MINIMUM length of education and appropriate work experience as a licensed, registered, or certified health professional
