Further Detail Regarding Acceptance of NMSI Training for AP Endorsement

This notification provides further detail about acceptance of National Mathematics and Science Initiative (NMSI) training to meet requirements for the Advanced Placement (AP) endorsement.

Review of the NMSI program indicates that the year one training cycle includes all of the essential aspects of AP training and utilizes College Board's resources, thus it meets the requirements for the AP endorsement. AP Endorsement for NMSI training is provided when the following circumstances are met:

- a. the school is a NMSI school;
- b. the teacher attends the NMSI AP Summer Institute, the NMSI fall two-day training, and the NMSI spring two-day training;
- c. the teacher submits documentation of attendance at all three training sessions upon completion of the spring training.

For more information, please contact Virginia Tate, Office of Standards and Learning, at vtate@ed.sc.gov or 803-734-2782.
