Report of Principal and School Improvement Council

Midland Valley Preparatory just completed the sixth year as a K-8 Charter School in Aiken County. We continue to see great progress in student achievement, which has been evident through statewide testing data and individual student progress. Smaller classrooms continue to allow our teachers to provide more one-on-one assistance than in a typical traditional classroom.

The Core Knowledge Curriculum has been the driving force in our academic progress. This program raises the bar for our students. Our expectations are that each student will be successful, and our goal is to help them reach this bar rather than lower it for them. This attitude permeates our program as evidenced in our staff's desire to do more in their classrooms. Our teachers have frequently attended the Core Knowledge National Conference which has strengthened their ability to present this high functioning curriculum. Projects and many field trip experiences reinforce our mission of providing a hands-on learning environment.

Our third grade class scored 100% Met Standards for Language Arts on the 2007 PACT testing. This class outscored all the Elementary Schools in Aiken County. We are very proud of this group of students. This class was the original 4K Class at Midland Valley Preparatory School when it opened in 2002. This group is the true testament of what our program is about and that it works.

This year our middle school students competed in the SRS Regional Future City Competition and received an award for "The Most Innovative Power Generation System". This competition commences over several months and concludes with a presentation of a model city built to scale. Our school is very proud of these student's who have received this award twice in their first two years of competition.

As a charter school, we are charged with the responsibility of building our own facility. This has been a focus of our Executive Board since the school opened in 2002. We are looking forward to being able to construct another permanent building to house our students but have had to struggle with a limited operating budget under the guidelines of the South Carolina Charter Schools Act. We have become a firm believer in the phrase, "It is not what the walls look like but what occurs within the walls that matter!" Our small school has been successful even though we do not have a lunch room, a gym or a library.

Despite our challenges, our school has successfully met the AYP objectives for the second year and has been named as one of only two Aiken County Middle School's of Choice. The list of students seeking enrollment continues to grow as the community becomes increasingly aware of our success. We wish to thank the many parents who believed in the concept of a charter school. It is with their continued support that we have been able to grow in becoming a school family. We are looking forward to what the 2008-2009 school year has in store for our school.
